☒ Document(s) were located which originated with, or contained information concerning other Government agency(ies) [OGA]. This information has been:

☐ referred to the OGA for review and direct response to you.

☒ referred to the OGA for consultation. The FBI will correspond with you regarding this information when the consultation is finished.

☒ You have the right to appeal any denials in this release. Appeals should be directed in writing to the Director, Office of Information Policy, U.S. Department of Justice, 1425 New York Ave., NW, Suite 11050, Washington, D.C. 20530-0001. Your appeal must be received by OIP within sixty (60) days from the date of this letter in order to be considered timely. The envelope and the letter should be clearly marked "Freedom of Information Appeal." Please cite the FOIPA Number assigned to your request so that it may be easily identified.

☐ The enclosed material is from the main investigative file(s) in which the subject(s) of your request was the focus of the investigation. Our search located additional references, in files relating to other individuals, or matters, which may or may not be about your subject(s). Our experience has shown, when ident, references usually contain information similar to the information processed in the main file(s). Because of our significant backlog, we have given priority to processing only the main investigative file(s).

If you want the references, you must submit a separate request for them in writing, and they will be reviewed at a later date, as time and resources permit.

☒ See additional information which follows.

Sincerely yours,

David M. Hardy

Re: MURKIN

Specimens received 5-17-71 from Pittsburgh

K4057 Four pamphlets entitled:  
 "A Time for Anger" by Don West  
 "Conspiracy in Coal" by T. H. Bethel  
 "Thoughts of Mother Jones"  
 "Poverty and Affluence in Appalachia" by Harry Caudill

Specimen K4011 received 5-11-71 from Pittsburgh

K4011 A. B. Dick Papers Offset Road Vellum Card Stock Index book

## Result of examination:

It was determined that the typewriters used in preparing the pamphlets comprising K4057 were not used in preparing the unidentified typewriting appearing on evidence submitted in the MURKIN, EASTCON and GALEBURG cases.

The paper comprising the K4057 pamphlets in the same color, has the same texture and the same weight as some of the tabbed samples in the A. B. Dick Paper stock book designated as K4011. These physical characteristics would suggest that the K4057 pamphlets were probably printed on the paper which the Appalachian Movement Press purchased from A. B. Dick.

The Xerox copies available to the Laboratory at this time have been treated for latent fingerprints. Contamination of these Xerox copies by this treatment prevented a definite conclusion being reached whether any of the questioned Xerox copies previously submitted were or were not copied on paper supplied by A. B. Dick, samples of which are described above as K4011. However,

random samples of the treated Xerox copies appear to have been prepared on a heavier stock paper than the Xerography 20# white paper tabbed in the K4811 A. B. Dick paper stock book. U

Specimen K4857 is returned to Pittsburgh herewith. Specimen K4811 is retained. Representative photographs of K4857 are also retained. U

MEDBURG

In order that the Philadelphia Office may be aware insofar as possible as to the activities of principal suspects in this investigation, the NCIC stop index should be utilized. Stops should be placed against prime suspects and should NCIC receive an inquiry from a local law enforcement agency, the Philadelphia Office will be immediately advised. U

Accordingly, Philadelphia should immediately submit fact sheets on each prime suspect to be included in the stop index. Furnish sufficient descriptive data such as birth date, social security number, military service number, etc. Include data on any motor vehicle utilized by the suspect. U

NOTE: See Rosen to Sullivan memo 6/24/71, captioned "NCIC Stop Index Medburg." In discussions with [redacted] and [redacted] of the Uniform Crime Reporting Section, it was indicated that should a local police agency make inquiry, a response would not be made to the inquiring agency with respect to the stop placed in the Medburg case. Should through mechanical deficiencies a reply be sent to the inquiring agency, it would be transmitted in such a manner so that the content of the message would be unintelligible. U

Our investigation into the burglary of the Media, Pennsylvania, Resident Agency during the night of March 8, 1971, has developed approximately 35 to 40 prime suspects who while not being directly involved in the participation of the burglary, could possibly possess information dealing with the distribution of Media documents. These individuals are being spot checked by our various field divisions, the degree of surveillance depending upon each individual's potential as a suspect. With the advent of the summer session, the closing of schools--many of these suspects are associated with colleges or universities--the propensity for travel increases. U

Under these circumstances, it would appear logical that these selected individuals be placed in the National Crime Information Center (NCIC) stop index in order that we may be made aware of any inquiry by a law enforcement agency throughout the U. S. relative to each. In this manner we could keep abreast of their activities and could possibly develop information which would be useful in connection with any future interview. U

This has been discussed with the Uniform Crime Reporting Section and it is understood that appropriate security measures have been implemented so that should an inquiry be made by a local law enforcement agency with respect to a Medburg suspect, no information would be furnished that agency. U

**ACTION:** If approved, Philadelphia will be instructed to submit necessary identifying data relative to each individual to be incorporated in the stop index. After incorporation into NCIC, any hit will be immediately forwarded to the Philadelphia Division, office of origin in Medburg, and the General Investigative Division. U

## Result of examination:

It was determined that the typewriter impressions on K5087 were not prepared with the questioned typewriters used in the preparation of specimens previously submitted in the MEDBURG, EASTCON and GARDBURG ATTEMPT cases. U

[redacted] signature on K5087 is not sufficiently comparable with the questioned material on specimens submitted in the MEDBURG, EASTCON and GARDBURG ATTEMPT cases for meaningful comparisons to be made. Therefore, it was not possible to determine whether the questioned material was or was not prepared by the writer of K5087. U

The submitted evidence will be returned separately.

In connection with our investigation into the burglary of the Media Resident Agency during the night of March 8, 1971, SAC Roy K. Moore, who is handling the special at Philadelphia, has advised 12 of the 25 Agents assigned to the Philadelphia Division on the special have returned to their field offices of assignment. Two more are scheduled to return this weekend, leaving a balance of 11, including SAC Moore.

We have discontinued the electronic surveillance of the cabin in the Pennsylvania mountains where it had been anticipated discussions would be had between break-in leaders and [redacted] relative to future break-ins. John Peter Grady, who has been developed as the principal subject in Medburg and the instigator of the majority of draft board break-ins throughout the East Coast, never appeared at the cabin as he stated he would. There is no indication his failure to appear was due to anything else but irresponsibility on his part. Our informant continues to maintain contact with others of the Berrigan group, and it is hopeful information pertinent to this investigation will be obtained through this source.

(MEDBURG)

Of primary interest is the fact our investigation in the Camden, New Jersey, area has resulted in the location of Grady, his hideout, and the [redacted] group which is led by Grady and which is currently planning a "hit," presumably on a draft board and/or Army Intelligence office in the Camden, New Jersey, Federal Building.

EX-105 REC 4352-94527-2330

The break-in has been tentatively set for the weekend of July 17 - 18, 1971. However, definite arrangements have not as yet been formulated. Appropriate safety measures have been instituted to protect our Camden Resident Agency, which is in the same building. As previously indicated in our memorandum of June 28, 1971, dealing with the latest phase of our investigation, it is imperative no dissemination be made of this information outside the FBI at this time. When full facts become known, consideration will be given to disseminating this information on a need-to-know basis. It is our

Re: MEDBURG

intention that by careful planning we may be in a position to apprehend those participating in this new break-in (15 to 25 individuals) during the actual attempt. We hope to link many of these individuals with the Media break-in. U

By memorandum dated June 24, 1971, reference was made to the feasibility of conducting a grand jury hearing into Medburg. It was recommended and approved that no action be taken along these lines until the discontinuance of our electronic surveillance at the Pennsylvania cabin. In view of the fact our current inquiries have resulted in our being in a position to anticipate a hit by the Grady group within the next two weeks, any grand jury action would obviously adversely influence Grady's plans for his newest break-in. U

ACTION: If approved, we will continue our efforts along the lines set forth above, and no discussion will be had at this time with the Internal Security Division relative to a possible grand jury hearing on Medburg. U

## Result of examination:

It was determined that the typewriter impressions, K5007, were not prepared with the questioned typewriters used in the preparation of specimens submitted in the MEDBURG, EASTCON and GARDBURG - ATTEMPT cases. It was also determined that the writer of K5006 did not prepare the questioned hand printing on specimens submitted in the MEDBURG, EASTCON and GARDBURG - ATTEMPT cases. The handwriting, K5007, is not sufficiently comparable with the questioned material in these cases for meaningful comparisons to be made. Therefore, it was not possible to determine whether the questioned specimens were or were not prepared by the writer of K5007. U

**Result of examination:**

It was determined that the typewriters used to prepare K4868 and K4884, and K4885 were not used in the preparation of the questioned typewriter impressions on specimens submitted in the MEDBURG, EASTCON and GARDBURG - ATTEMPT cases. The typewriter impressions on K4884 are too limited and the copy is not sufficiently legible to determine the make and model of the typewriter used in the preparation of this specimen. U

Many of the submitted copies contain the characteristic markings and partial markings which appear on questioned copies reproduced on Xerox Model 2400 previously submitted in this case. However, additional markings indicate the submitted copies were not directly reproduced on the questioned Xerox Model 2400 copier. No watermarks or indented writings of value were noted on these copies. U

The handwriting and hand printing on the submitted specimens were not prepared by the writers of the questioned hand printing in the MEDBURG case and the questioned material in the EASTCON and GARDBURG - ATTEMPT cases. U

The submitted evidence is retained at the Bureau. U

## Result of examination:

The typewriter impressions, Kc5067, are the same style of type as the typewriter impressions used in the preparation of specimen Q201 in the MEDBURG case. However, due to the lack of identifying characteristics, it could not be determined whether one typewriter was used in the preparation of these specimens. The typewriter impressions, Kc5067, were not used in the preparation of the remaining questioned typewriter impressions on specimens submitted in the MEDBURG, EASTCON and GARDBURG - ATTEMPT cases.

It was determined that the typewriter impressions on Kc5068, Kc5070 and Kc5071 were not prepared with the questioned typewriters used in the preparation of specimens previously submitted in the MEDBURG, EASTCON and GARDBURG - ATTEMPT cases.

It was determined that the writers of Kc5070 and Kc5071 did not prepare the questioned material on specimens previously submitted in the MEDBURG, EASTCON and GARDBURG - ATTEMPT cases. The handwriting on Kc5069 is not sufficiently comparable with the questioned material to determine whether this writer did or did not prepare the questioned material. U

The submitted evidence is retained at the Bureau. U

On the night of March 8-9, 1971, the FBI Offices at Media, Pennsylvania, were burglarized by an unknown subject or subjects. Investigation is continuing in this matter. U

b6  
b7C

On September 17, 1970, a fire of suspicious origin destroyed the Local Draft Board 56, Cortland, New York. A gasoline can and cap found at the scene, along with a statement from a service station attendant led to the interview and subsequent confession of [redacted] statement. she admitted driving the three male subjects, [redacted] to within one block of the draft board at 9:00 p.m., September 17, 1970, at which time they departed the car to return ten minutes later, advising that the fire had been set. U

Complaints were authorized by Assistant United States Attorney, Northern District of New York, Syracuse, New York; warrants issued by U. S. Commissioner, Northern District of New York, Syracuse, New York, charging violation of Title 18 and 50, App., Section 1361 and 462, respectively, on September 23, 1970. Subjects [redacted] were arrested September 23, 1970, and arraigned September 24, 1970, at Syracuse, New York. Charges against [redacted] were subsequently dismissed at a preliminary hearing on October 6, 1970, as Assistant United States Attorney did not present any evidence to the U. S. Commissioner. Warrant still in effect for subject [redacted]

There have been no convictions in this matter. U

Q331 Copy of newspaper handwritten and hand printed message  
beginning, "To the clerk of the Local Board..." U

Result of examination:

A number of hand printing differences were noted  
including that the underscoring of the words appearing  
in evidence in the HARRIS, KATON and CAMPBELL ATTORNEY cases  
were prepared by someone other than the writer of the hand  
printing in Q331; however, the limited material available  
for examination prevented a definite opinion being  
reached as a result of these comparisons. U

The notation from the Xerox copier used in the  
examination of Q331 does not reproduce the characteristic  
markings which appear on some of the Xerox copies previously  
submitted in the HARRIS case. U

Specimen Q331 has been photographed and will be  
returned to Philadelphia separately. U

SUBJECT:

MISCELLANEOUS - INFORMATION CONCERNING  
(MEDBURG SUSPECT)  
OO: Boston

**CONFIDENTIAL**

Re Boston airtel to the Bureau, 6/11/71.

A source known to the Atlanta Office advised on 6/22/71, that Atlanta telephone number 523-2471 is subscribed to by the Institute for Southern Studies, Five Forsyth Street, S. E., Atlanta, Room 355, since August, 1970. U

It is to be noted that [redacted] has advised that the Institute for Southern Studies is an affiliate of the Institute for Policy Studies, which is headquartered in Washington, D. C. U

According to an article in the Washington, D. C. weekly newspaper, "The Examiner", dated 9/24/67, Page 22, an article appeared which was authored by EDITH KERMIT ROOSEVELT, which article characterized the Institute for Policy Studies as a Washington-based "think factory" for helping train extremists to incite violence in United States cities, and whose educational research serves as a cover for intrigue and political agitation. Through its violence and seminars the Institute for Policy Studies exerts a continuing influence on the ideology and tactics of New Left. U

Result of examination:

The hand printing and handwriting on K5065 is not sufficiently comparable with the questioned material on specimens previously submitted in the MEDEBURG, EASTCON and GARDEBURG - ATTEMPT cases for meaningful comparisons to be made. Therefore, it was not possible to determine whether the questioned material was or was not prepared by the writer of K5065.()

Philadelphia disagrees with this status. This Office believes that [redacted] has been thoroughly tested and is truly dedicated to this movement. When she was apprehended 2/7/70 at the time of the break-in of Selective Service Headquarters inside the office at 1421 Cherry Street, she gave Philadelphia Detectives a "very hard time." Lt. [redacted], head of the Civil Disobedience Unit, Philadelphia Police Department, advised it was necessary to handcuff her to a chair. She is wanted locally on a bench warrant obtained 7/22/70, when she failed to appear for arraignment 7/2/70 on a charge of illegal entry. This is a misdemeanor, for which she cannot be extradited, but Philadelphia Police would be interested if she is known to be in this area in the future. At the time of her arrest, she had nothing on her person to identify herself. U

b6  
b7C

In addition, as pointed out in referenced Boston report dated 4/28/71, subject attended meetings during May and June, 1970, to plan break-ins at Selective Service Offices in Wilmington, Del.; New Haven, Conn.; and New York City, and subject reportedly conducted these meetings. PHILIP BERRIGAN told a source that subject was a person who should be brought into the proposed kidnaping at Washington, D. C. Also, in her speeches, she mentioned the break-in of the Media Resident Agency of the FBI. U

In view of the above, Philadelphia believes she should continue to be considered as a prime suspect; and, accordingly, Boston is instructed to comply with instructions in Philadelphia teletype dated 6/18/71, captioned "MEDBURG." U

Although she cannot be surveilled, [redacted]

[redacted] it is believed that attempts should be made, through established sources, to determine if she remains in the Boston area. We would be most interested to learn if she plans a trip to the Philadelphia area. Also, as instructed in Philadelphia teletype 6/18/71, a summary of her activities, which can be obtained logically and discreetly from established sources, should be submitted at the end of each week. Also, the results of toll calls should follow later. U

MARCH 8, 1971  
THEFT OF GOVERNMENT PROPERTY**

On June 18, 1971, [redacted] a Philadelphia Civil Liberties Union Attorney, telephonically contacted the FBI Office at Philadelphia, Pennsylvania, advising he was writing a letter to the Philadelphia Office of the FBI and the United States Board of Parole Office, Philadelphia, Pennsylvania, objecting to the interview of his client [redacted] is currently on parole until September, 1973, after having served 26 months of a four-year sentence for failure to report for induction and is under the supervision of the United States Board of Parole Office, Philadelphia, Pennsylvania. U

[redacted] has been closely associated with individuals suspected of being involved in the burglary of our Media, Pennsylvania, Resident Agency the night of March 8, 1971. His whereabouts were unknown and accordingly arrangements were made with the United States Board of Parole Office, Philadelphia, to interview him when he next reported. On June 15, 1971, [redacted] was interviewed by Special Agents of the FBI at the United States Board of Parole Office, Philadelphia, to determine his knowledge regarding the burglary. During the interview Femia admitted two unauthorized trips to Washington, D. C., and alluded to a trip to New York for [redacted] in violation of the terms of his parole. [redacted] was most cooperative and cordial during the interview, and the interview was terminated with [redacted] pledging his cooperation to the FBI. U

[redacted] subsequently made a press release at Philadelphia, Pennsylvania, claiming the FBI had threatened to revoke his parole unless he cooperated with them. Agents who participated in the [redacted] interview have unequivocally denied this false allegation. U

Enclosed for the Lab is a copy of a memo of SA [redacted] dated 8/1/69 and a leaflet entitled "Quaker Tells of WORK FOR FBI". U

For the information of the Laboratory the enclosed memo was one of the documents stolen in captioned case. On 4/16/71 [redacted] publicly announced he had been a paid source of the FBI. At the announcement he displayed a copy of an FBI document. U

On 5/15/71 [redacted] delivered the enclosed memo to the Philadelphia FBI with a note that he had received it from the Friends Peace Committee (FPC). He said the blue ink notations are his, but the writing under the ink was on the document when he received it. He said further the notations under the ink may have been made by the FPC or by the group furnishing the document to the FPC, presumably the Citizen's Commission to investigate the FBI (CCIF). U

REQUEST OF THE LAB EX-105 REC-51 52-94527-233

1. Will attempt to remove the blue ink from the enclosed memo to determine if the notations under the ink are sufficiently distinct for comparison purposes. U

2. If the covered writing is comparable, compare it with handwriting specimens furnished in draft board cases. U

3. Examine typing on enclosed leaflet to determine if style is identical to that appearing on documents originating with the CCIF. U

Attached for inclusion in running damage assessment brief (pages 215 - 219) are writeups on four additional items relating to work of Domestic Intelligence Division (DID) not previously known stolen from former Media, Pennsylvania, Resident Agency. Documents in question are missing from Philadelphia files, charged to Media Resident Agency, and presumed to have been stolen.

## Racial Matters

One item relates to work in this area. It is a memorandum to the SAC Philadelphia concerning the [redacted]

[redacted] made available to the FBI information in possession of the [redacted]. Mention is made in the memorandum that investigations are being instituted on the [redacted] and of the existence of an [redacted] furnishing information concerning activities in this group. REC-51

## New Left and Miscellaneous Matters

Three documents relate to work in this area. One is a teletype from the Alexandria Office concerning a demonstration at the Pentagon by A Quaker Action Group, an antiwar group associated with the pacifist American Friends Service Committee. The other two documents are an airtel and a letterhead memorandum also relating to activities of this group and demonstrations at the Pentagon in July 1969. The documents show details of demonstration activity by this group.

Damage Assessment

Should the information concerning our investigation of the [redacted] [redacted] this group become public, it could adversely affect development in this area. The information set forth concerning [redacted] in this small group could conceivably lead to [redacted] other documents stolen from Media, but this document sets forth detailed information he furnished. Philadelphia has been instructed to advise the informant of this matter. The information concerning activities of A Quaker Action Group concerning demonstrations held at the Pentagon would not seem to be damaging even if disclosed as it relates to demonstrations and arrests of individuals causing a disturbance at a Government installation and the Pentagon Security Police in this instance would logically be expected to cooperate in furnishing information. Copies of the documents have been furnished to the Department. U

Enclosed for the Bureau is one copy of a section of Xerox Manual for 660 Machine.

The following is a summary of examination conducted by Xerox Corporation, Webster, New York.

TONER EXAMINATION

Toner analysis conducted on 3/27/71. Xerox copies of Q23, 24, and 28 were made. Due to the length of time and destructive process, analysis was confined to three samples. Center portion of each of the three documents were removed and sufficient sample of toner was extracted. Analysis disclosed toner to be Xerox 1190, used exclusively in Xerox 660 Machine. This toner is unique to Xerox, which uses a fluidizing polymer (Penta Erythritol Tetra Benzoate). Results of complete toner analysis with graffs from Xerox will be furnished the Bureau. U

PAPER EXAMINATION

Paper analysis conducted on 3/29/71. A small portion of Q13, 14, 15, 23, 24 and 28 were removed for this analysis. The following is a composition of the documents analyzed:

Q13

Hardwood Beachwood Kraft	24%
Hardwood Bleached Sulfite	35%
Softwood Bleached Kraft	41%

Q14

Hardwood Bleached Kraft	20%
Hardwood Bleached Sulfite	55%
Softwood Bleached Kraft	25%

Q15

Hardwood Bleached Kraft	31%
Softwood Bleached Kraft	20%
Softwood Bleached Kraft	49%

Q23

Hardwood Bleached Neutral Sulfite	
. Semichemical	69%
Softwood Bleached Kraft	31%

Q24

Hardwood Bleached Neutral Sulfite	
. Semichemical	75%
Softwood Bleached Kraft	25%

Q28

Hardwood Bleached Neutral Sulfite	
. Semichemical	79%
Softwood Bleached Kraft	21%

Q13 and 14 have characteristics similar to paper produced by Nekoosa Edwards, Port Edwards, Wisconsin, with a plant in Potsdam, New York.

No conclusion could be obtained regarding Q15, due to the difficulty in staining because of resins - zinc oxide coating.

Q23, 24 and 28 appears to be Hammermill Paper, Erie, Pennsylvania with plants in Lockhaven, Pennsylvania and Oswego, New York. Hammermill supplies paper to Xerox according to xerox specification and also supplies paper to other sources under the same specifications. Therefore, no determination could be made as to whether the paper was Hammermill for Xerox or Hammermill for another source. It was concluded this paper is not Xerox 1024 or Hammermill O copy, due to the lack of water mark which indicates a Grade One paper. The paper appears to be Xerox 4024 (Grade Four), Xerox 1524 (Grade Five), Hammermill Fore O copy (Grade Four) or Hammermill Savings O copy. The difference between Grade Four and Grade Five paper is essentially due to the characteristics of the surface and this difference could not be ascertained due to toner and background on documents. The paper is a relatively smooth common bond duplicator grade.

#### REPRODUCTION METHODS

Olivetti Underwood Copia II and Copia III impart a distinct dark color border on both sides and the top of the copy. These machines utilize zinc oxide coated paper. Olivetti Underwood is located Englewood Cliffs, New Jersey. An example is Q15.

3M Process is Dual Spectrum. This process utilizes white and pink paper, each containing a chemical passing over an exposure section, which is then heat treated for development. 3M produces five machines which are as follows:

- (1) Casual Compact (Brief Case Type)
- (2) Casual Desk
- (3) Copy Mite
- (4) Model 107
- (5) Model 209

3M also underlicenses a machine, Trans-O-Gram Copymate. This machine as well as the above 3M machines utilizes 3M paper, which has a tulip mark on the reverse side.

The Xerox 660 is in a family with Xerox 330 and 813, however, the 660 is the only xerox machine that reproduces at a one to one ratio. This machine imparts certain mechanical characteristics upon the original and the copy. The top edge of the original will have imparted upon it by the machine four pin-points which is caused by the document grippers. The document grippers hold the original to the document drum during the cycle. Copies should have three double sets of pinch marks on the top of the page, which is caused by the gripper bar. The gripper bar attaches to the copy and is pulled through the machine during

the cycle. Thin vertical lines, approximately two and one half inches from each side of the copy is caused by toner build-up on the feed out rollers. Three wider vertical lines at the bottom of the copy is caused by toner build-up on document drum under the stops. The top one half inch of the original document will not be reproduced on the copy unless the plastic document carrier is used. If the document carrier is used the four pinpoints will not be imparted on the original.

#### UNIQUE DOT

From analysis of numerous documents submitted, it is noted a unique dot characteristic to the unknown machine is located four and one half inches from the left side and from one quarter to one half from the bottom. This unique dot is reproduced on a eleven inch copy from a ten and one half inch original. Therefore, the last one half inch of the eleven inch copy is a reproduction of a one half inch section of the document drum. The dot can be caused by either dirt on the drum or a chip from the drum. To reproduce the dot it is necessary to utilize a ten and one half inch original and reproduce this on eleven inch paper. It is noted that if ten and one half inch document is reproduced on ten and one half inch paper, the dot will not appear. It is noted if an eleven inch document is reproduced on eleven inch paper the dot will not appear. In the event the unique dot is caused by dirt on the document drum the dot could be removed when the machine is cleaned. It is noted this unique dot is present on Q17-22, 24-26, 28-32, 35-41, 43, 45-47, 52-58, 60-66, 69-80, and 83.

Q24, 66 and 83 are reproductions from Xerox 660. Q24 was also used to reproduce additional copies from Xerox 660.

(19) Citizen's Committee to Investigate the FBI

Q84 is a reproduction from Xerox 660.

(20) For Immediate Release.

Q85 is a reproduction from a mimeograph type machine, utilizing liquid ink. The stencil was typed on a manual typewriter. The presence of red ink on the reverse side is from the copy reproduced immediately prior to Q85.

(21) One the night of 3/8/71 . . .

Q86 is a reproduction on zinc oxide paper. The machine utilized is roll feed rather than cut feed, which indicates the copy is reproduced side ways on paper eleven inches wide. Several companies produce this type of machine and no identifying characteristics were noted which would identify the manufacturer.

(22) FD-302, dated 7/13/70.

Q87 is a reproduction on zinc oxide paper and has the same characteristics as Q86.

(23) Memo of SA [redacted] dated 6/18/70 on Philadelphia 157-3852.

Q88 is also a reproduction on zinc oxide paper and having the same characteristics as Q86.

(24) Envelope, dated 3/9/71, with new clipping.

Q92 is probably a reproduction from a Xerox Machine, possibly 2400 or 3600, however, no characteristics were noted which could identify the machine.

(25) On the night of 3/8/71 . . .

Q93 has the same characteristics as Q92.

(26) The Citizen's Committee to Investigate the FBI.

Q95 is a reproduction from a Xerox 660.

Upon completion of examination by the laboratory, consideration should be given to forwarding documents of 3M and Olivetti Underwood to respective main offices for additional examination in an attempt to identify any further characteristics or information.

## Result of examination:

The Ridolfi signature on Kc4996 is not sufficiently comparable with the questioned material on specimens submitted in the (MEDEBURG, EASTCON, GARDBURG - ATTEMPT and [redacted] cases for meaningful comparisons to be made. Therefore, it was not possible to determine whether RIDOLFI did or did not prepare any of this questioned material. U

The submitted evidence is returned herewith.

## Result of examination:

It was concluded PAUL B. COUNING, whose known handwriting consists of K4570 and K4695 (MEDBURG) prepared the hand printed entries in the Q91 diary, the hand printing on the Q100 and Q129 lists, most of the hand printing on the Q152 time schedule and the hand printing on the Q153, Q218 and Q425 surveillance logs. Due to the presence of unexplained variations, or the limited nature of the known standards available for COUNING, it could not be determined definitely whether he prepared any of the remainder of Q1 through Q617. Hand printing similarities were observed when his known standards were compared with Q48, Q148, Q205, Q254, Q255 and Q270. U

b6  
b7C

Due either to the limited nature of the available known standards, or the presence of unexplained variations or illegibility in the questioned material, it could not be determined definitely whether any of the unidentified handwriting and hand printing on Q1 through Q617 was or was not prepared by any of the following individuals: KATHLEEN RIDOLFI, Kc5045 (MEDBURG); [redacted] K5039 (MEDBURG); [redacted] K4024 (MEDBURG); or [redacted] whose known handwriting consists of her fingerprint card signatures. U

It is noted specimen Q271 is a 1970 calendar and address book reported to have been found in the suitcase of [redacted]

It was concluded that the person who wrote the majority of the handwriting in Q271 also wrote the majority of the handwriting in the Q272 address book, the signatures on the Q278, Q279 and Q281 through Q283 identity cards, and most of the handwriting on the Q290 "personal calendar." Nothing of particular significance was observed to indicate this individual prepared any of the remaining questioned handwriting on Q1 through Q617. It is noted

On 6/8/71, Chief of Police THOMAS BRUTON, Media, Pa., advised SA [ ] that on two occasions in the last several weeks he has dusted and lifted latent fingerprints from the transom over the door of the Selective Service Draft Board located on the second floor of the County Court Apartment Building, 1-7 South Avenue, Media, Pa. The draft board is located on the same floor as the Media Resident Agency had formerly been located. Chief BRUTON advised that he was treating both incidents as possible attempted break-ins of the draft board. BRUTON advised that his office would be forwarding to the FBI Laboratory all lifts developed and a list of suspects in the near future. BRUTON furnished SA [ ] with two photographs of some of the latents lifted by his department. U

Enclosed for the Bureau are two photographs furnished by Chief BRUTON to SA [ ]

REQUEST FOR THE BUREAU

1. Perform EX-LATS examination on all latents furnished by Chief BRUTON.
2. Compare latents furnished by Philadelphia Office under cover letter dated 6/9/71, captioned "MEDBURG", with latents furnished by Chief BRUTON. U

Result of examination:

The limited hand printing on Qc384 is not sufficiently comparable with the questioned material on specimens previously submitted in the MEDBURG, EASTCON and GARDBURG - ATTEMPT cases for meaningful comparisons to be made. Therefore, it was not possible to determine whether the questioned material was or was not prepared by the writer of Qc384. U

The submitted evidence has been photographed, and is retained. U

GENERAL INVESTIGATIVE DIVISION

Attached concerns continuing progress being made by individuals led by John Peter Grady, primary Medburg subject, concerning planned break in at post office building, Camden, New Jersey, within next two weeks. Exact target not yet established, however, source indicates target will probably be draft board office with military intelligence and Camden Resident Agency (RA) as alternate targets. Investigation continuing under direction of SAC, Roy K. Moore who is handling Medburg special. U

Appropriate security measures in effect at RA. Imperative no dissemination be made at this time in order that we are in position to apprehend subjects when they make attempt. U

## Result of examination:

No language or linguistic style-of-writing characteristics were found in Kc5093 to indicate significant similarity or dissimilarity with the language characteristics of MEDBURG specimens composed by the Citizens' Commission to Investigate the FBI or GARDBURG ATTEMPT specimen Q50. U

Similar sentence structure was noted between Kc5093 and MEDBURG specimens, but these similarities are of such a limited nature that no definite conclusion could be reached as to whether or not they were composed by the same individual. U

Specimen Kc5093 is being retained at the Bureau. U

Examination requested: Cryptanalysis-~~Document~~

Date received: 4/27/71

Result of Examination:

Examination by:

No language or linguistic style-of-writing characteristics were found in Kc5093 to indicate significant similarity or dissimilarity with the language characteristics of MEDBURG specimens composed by the Citizens' Commission to Investigate the FBI or GARDBURG ATTEMPT specimen Q50.

Similar sentence structure was noted between Kc5093 and MEDBURG specimens, but these similarities are of such a limited nature that no definite conclusion could be reached as to whether or not they were composed by the same individual.

Specimen Kc5093 is being retained at the Bureau. U

REPORT 12-18-70

b6  
b7c

Dear Friend:

On November 27, J. Edgar Hoover, Director of the Federal Bureau of Investigation, testified before the Senate Appropriations Committee that a "conspiracy of Catholic nuns, priests and lay people," masterminded by Philip and Daniel Berrigan, were planning actions such as kidnapping government officials and bombing power facilities to the Capitol. Mr. Hoover's testimony suggested that all the persons associated with anti-war draft actions were a single conspiratorial group, led by the Berrigan brothers and all identified with the group known as the "East Coast Conspiracy to Save Lives."

Those of us who know the ad hoc and nonviolent character of the Catholic resistance movement in these areas feel that these charges represent a very serious escalation of government repression of dissent and political opposition. Needless to say, the many people associated with the various actions are not a single group, are not led by the Berrigan brothers in any organizational sense and totally reject the kind of actions which Mr. Hoover describes. Such testimony is an obvious effort to instill panic in the main body of the citizens by conjuring up an image of desperadoes who are planning to put together in one package all the various tactics of third world revolutionaries in Cuba, Vietnam, French Canada and Palestine.

If the FBI can make such charges totally without evidence, without any actual crimes committed and potentially bring down serious indictments based solely on their 'secret evidence' of 'conspiracies' and 'plots,' no citizen is safe and our civil rights will quickly disappear.

We feel that it is time for the broadest possible coalition of concerned citizens in all walks of life, but especially those connected with the church, to register a very strong protest in Washington against such political and repressive use of the legislative power of the FBI, and to make a dramatic manifestation of our repudiation of terrorism both by the Left and by the government. Finally we wish to show our determination to work for change through persuasion and reasoned confrontation with the issues. Nothing less than a transformation of consciousness and a rededication to constitutional ideals and human values can save this country from a very dangerous turn toward total destruction of liberty and hope both at home and around the world.

We call on you to respond to this and arouse your friends and colleagues to do likewise. As a service of national rededication, we plan to hold a 24-hour fast-vigil in front of the Justice Department, December 18-19. We will assemble at a near-by church (to be announced) at 4 p.m. Friday and march from there in solemn procession to the Justice Department where we will commission the fasters with laying on of hands. At 3 p.m. the following day there will be a concluding celebration of the Eucharist, led by a broad spectrum of church and civic leaders. We call on you to come and bring others to participate in some or all of these events and to join us in this rededication to solidarity, resistance to oppression and commitment to authentic social values.

Investigation regarding Cornelius J. Drew  
Foundation:

b6  
b7C

On May 28, 1971, [redacted]  
of anti-poverty programs, Office of the Controller of the  
City of New York, Municipal Building, New York City, furnished  
the following information: U

[redacted] advised that his department is presently  
involved in reconciling approximately \$8,000,000.00 in  
accountabilities owed to the City of New York by numerous  
anti-poverty agencies that had received federal and city  
grants under the Economic Opportunity Act. [redacted] explained  
that the accountabilities are owed either by explanation of  
fund expenditures or in the alternative by a return of non-  
expended cash. He stated that one such agency, operating under  
the direction of the Human Resources Administration (HRA) of  
the City of New York, Community Development Agency,  
was the Cornelius J. Drew Foundation (CDF). CDF was advanced  
\$63,000.00 for which \$49,820.98 has not been accounted, and  
advanced \$20,873.25 for which \$6,521.32 has not been accounted.  
The current total accountability, composed entirely of  
federal funds is \$56,342.30. U

[redacted] stated that in the case of CDF, an advance  
represents an initial out lay of federal funds from the City  
of New York, so that the agency can begin operations. The  
accounting for the advance would occur when the agency ceased  
operations. Other allocations to the agency would be handled  
by the submission of expense vouchers to HRA for payment by  
the City of New York which maintained control over other  
agency funds. U

b6  
b7C

In regard to CDF, [redacted] advised that he is not  
certain if the account has been settled with HRA and then  
owing to the City of New York by HRA or whether the account  
is still owed to HRA by CDF. He indicated that CDF terminated  
its operations in September, 1967, but that nothing had been  
done to date to complete the reconciliation. [redacted] stated  
that this same situation exists with numerous other anti-  
poverty agencies, explaining that at the inception of the anti-  
poverty programs, the accounting procedures of the various  
agencies were extremely poor. U

DWH:mfe

2.

NY 62-14475

Due principally to a lack of records, as well as the number of agencies involved, [ ] was unable to furnish a projected date that the reconciliation of the CDF account would be completed. U

[ ] informed that by the terms of the contracts to set up the agencies, all the records for an agency could be destroyed after three years from the date of agency termination. He added that, in his opinion, equipment purchased under the contract, would, at the termination of the contract, become the property of the Office of Economic Opportunity. U

b6  
b7c

[ ] concluded by stating that he was not aware of any specific misappropriation of equipment or program funds in connection with CDF, but was aware that CDF had been previously investigated by HRA. U

DWH:mfe

1.

NY 62-14475

In regard to this investigation, the New York Office will continue efforts to ascertain if a prosecutable violation exists. Appropriate officials at HRA, currently involved in the audit of CDF, will be promptly interviewed to determine results of their inquiries. Efforts will also be made to expand information regarding GRADY's alleged misappropriation of federally owned equipment. U

b6  
b7C

The following investigation was conducted by SA [REDACTED]  
[REDACTED], at Chicago, Illinois: U

On May 19, 1971, [REDACTED]  
[REDACTED] advised a search of his records revealed that JOHN PETER GRADY was employed by the Cana Conference of Chicago from October 1, 1960, through June 13, 1961. He stated his title was Executive Assistant. U

He stated that prior to his employment with the Cana Conference, GRADY was associated with a Catholic magazine, Jubilee, which is published somewhere in the East. U

[REDACTED] stated that GRADY was an excellent organizer and was very successful in handling large conferences and conventions. He stated that as adept as GRADY was in this capacity, he was deficient in detailed work and everyday paper work. [REDACTED] stated that if his budget was large enough to maintain a public relations man for the handling of such conferences with no requirements as to detailed work, then he could think of no man he would prefer over GRADY. U

b6  
b7C

He stated that inasmuch as he needed someone who was more well-rounded in his abilities in this line of work, he was forced to terminate GRADY. He stated that the termination was amicable as GRADY realized his weakness in detail-type work and was aware that this part of his job was equally as important as the organizational aspect of the job. U

[REDACTED] advised that he considered GRADY to be a very intelligent individual and GRADY in no way ever conducted himself in any manner which would cast aspersions on his loyalty or trustworthiness. He stated his personal opinion of GRADY was that he was extremely loyal and his character and morals are above reproach. U

He stated he can think of no one at the Conference who would have known GRADY. He stated that GRADY was very active in meeting with many different types of individuals while with the Conference and as a result of his dedication, he had little time for private social activities. He stated that the only friends GRADY had which are known to [redacted] would be [redacted] of Oak Park, Illinois. U

He advised that GRADY was associated with the [redacted] as both did work with a Montessori School located somewhere in the western suburbs of Chicago. He stated he thinks that this school is now known as the Alcuin School. U

b6  
b7C

[redacted] stated that he does not think GRADY was involved to a large extent with Montessori schools in Chicago although he did become quite active in working with these schools after he left Chicago. He stated that after GRADY left Chicago he attended a conference in an unknown city and he happened to meet GRADY. He said that GRADY was attending some type of Montessori School conference in this same city. U

He advised that he heard that when GRADY left Chicago he returned to the East and went into politics. U

The following investigation was conducted by SA  
[redacted] on May 25, 1971: U

[redacted] Board of Trustees, Residence  
address [redacted] Illinois, advised that  
JOHN GRADY was listed in school records as one of the founders  
of the Alcuin Montessori School. She stated that prior to  
founding this school, GRADY took part in establishing the  
Chicago Montessori Society (an organization which is no longer  
in existence). Subsequent to this, GRADY and two doctors  
named [redacted] organized the Alcuin School. The organization  
and incorporation of the school took place in late 1960 and early  
1961. The school opened for classes in September, 1961. U

b6  
b7C

[redacted] advised she did not personally know GRADY  
as she became involved with the school in 1965. Other than  
Doctors [redacted] she knew of no one who personally knew  
GRADY. U

The following investigation was conducted by SA

[REDACTED]

On May 20, 1971, [REDACTED] advised he first met JOHN PETER GRADY in 1960 at Notre Dame during a Christian Family Movement Meeting where GRADY was selling subscriptions to the "Jubilee" magazine. Some weeks later, GRADY came to Chicago where he and his [REDACTED]

b6  
b7C

[REDACTED] and a few other couples met with plans to form a Montessori school. GRADY led the formation of the school known as the Alcuin School in Oak Park, Illinois. U

He said that while in Chicago, GRADY worked at Cana Conference, Chicago, Illinois, where he met and became acquainted with [REDACTED]

[REDACTED] continued that GRADY had received an MA in Sociology from Fordham University and had worked in the social field of Puerto Rico. U

He stated that he knew very little about GRADY's wife [REDACTED]

[REDACTED] further advised that GRADY was not a member of any radical or subversive organization that he knew of and inasmuch as GRADY was in Chicago for only about two years, he considered GRADY a fine person and of good character. U

b6  
b7C

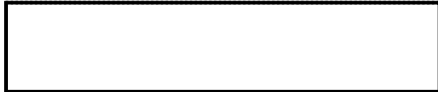

He concluded that he had not seen nor been in contact with GRADY for about ten years since GRADY left Chicago for New York. He said that GRADY went to New York and formed Montessori schools there. U

## 3 Seminarians Are Arraigned As Squatters

By KEITH MOORE

Three Jesuit seminarians were arraigned in Criminal Court on charges of criminal trespass yesterday after they had claimed squatters rights to a building owned by Columbia University.

The seminarians, believed to be affiliated with Woodstock College at 475 Riverside Drive, claimed in court that police smashed the door to their apartment at 150 Morningside Drive early yesterday. They had been living there since June 25, they said.

### Columbia Complained

Police said they moved in on the group on a complaint from Columbia University and found 10 to 15 persons asleep on mats on the floor.

Six of the tenants, police said, refused to leave the building, which the university first planned to demolish nine years ago.

Booked at the W. 126th St. station were seminarians Peter Ford, 34, Edward McGowan, 36, and Edward Murphy, 34.

Arrested with them were Robert Good, 28, and Kathleen Reagan. A third man, Michael Becel, 23, gave his address as 2164 Grand Ave., Bronx.

Late last week, after Ford and Murphy had moved into the building, the two seminarians asserted that "Columbia has had this building for years and has barricaded the windows to prevent tenants from moving in."

A Columbia spokesman explained at the time that the building was "one of several buildings in the area to be renovated. When the buildings are finished, they'll be available for residents in the area, students and faculty members."

### Tell of Vacant Units

Those living in the building say that there are 13 vacant apartments of seven and eight rooms renting for from \$50 to \$175. Most have been vacant for many years, they said.

On May 1, Mrs. Juanita Kimble and her 10 children celebrated her first year as a squatter with a "paint-in." Mrs. Kimble still lives in the building.

Criminal Court Judge Morris Schwalb released the six suspects in their own recognizance yesterday, pending a hearing Tuesday.

For your investigative assistance only,  
nothing of particular significance was observed based  
on such limited comparisons as were possible with the  
limited known standards represented by Kc8. If further  
comparisons are desired with respect to [redacted] it is  
suggested that additional known handwriting of this  
individual be submitted and that you also submit known  
hand printing containing both upper and lower-case letters.  
It is noted Kc8 consists almost entirely of hand printing  
and that this is primarily in the upper case. U

Sirs,

I have been informed that my case for turning in my SSS card and/or failure to report for induction, has been returned to you with a letter stating that the federal district attorney refused to prosecute this case. I am writing to you to let you know that my address has changed and to explain where I stand, morally, as concerns the Selective Service System.

My address is: home-

office- c/o AMAG  
20 S. 12th St.  
Philadelphia, Pa. 19107

When I last had contact with you I informed you that I was becoming a non-cooperator. I still am a non-cooperator and I shall remain so. I am presently employed by A Quaker Action Group in Philadelphia. Since last speaking with you I have been actively giving my life for the peace that I so long for. I have organized Free Presses among the students. I have marched with 17 fellow workers for peace. I have counseled other young men in their problems with the draft. I am, and shall remain so, in open and constant conflict with the system which perpetuates the Selective Service System.

b6  
b7c

The Selective Service System is America's modern form of slavery. It is a force to every moral value which is expressed in the "American Dream". Yes, I too have that dream; although it is a dream of a free world, a happy world, a world where children can live without fear. That world can never be as long as we or any country maintains an institution which recruits men to kill other men, for that world can never be as long as men continue to kill.

Because I am researching and working for that new world, I will oppose you. I will give my life if necessary to destroy the system which I believe to be destroying the world and the people that I love.

The Selective Service System has not long to live, for all over the young men are rising up against it. For every one of us that you put in jail there were nine up to take the place of those imprisoned brothers. You have imprisoned some of my best friends. I shall not be intimidated nor shall I fall prey to your offers of a shady pardon in the form of a deferment.

I shall RESIST you. I shall be one of those men who in striving to live a good life, as they understood it, destroyed the Selective Service System.

Dear Friends:

In my letter dated Sept. 15, 1969, I informed you that I intended to remain a non-cooperator. In this letter I shall give you more details of the act which, once again, will disaffiliate me from the Selective Service System.

On October 13, 1969 the Philadelphia Draft Resistance will hold a draft card turn-in. During that afternoon I shall turn my card over to resistance, to do with as they see fit. I don't want the damn thing. At this time I will make verbal confirmation of my Resistance and attempt to persuade other young men to turn-in their SSS cards, as I have done.

Part of my presentation will tell of the idiotic blundering of Board No. 63. A draft board which could not even function with-in it's own Selective Service Laws. I feel that you have a right too defend yourselves from such verbal attack. Therefore, I invite you too be in Philadelphia on October 15th at Kennedy Plaza to respond in rebuttal to what ever I say at that time. Please feel free to respond openly and honestly.

Yours in Love and Peace

# Statement:

## the Boston Eight

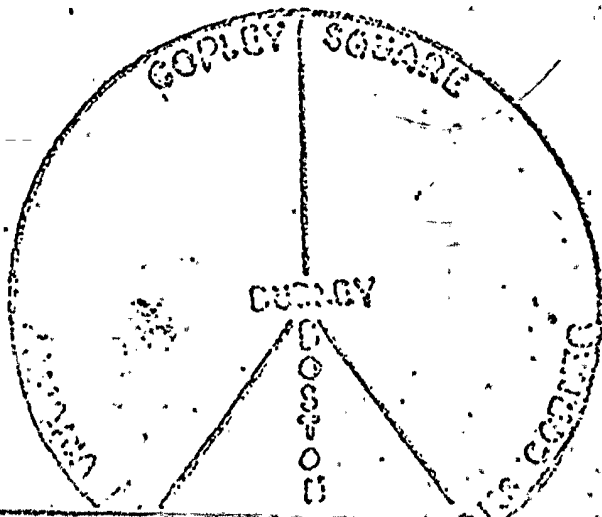

We, the Boston Eight, claim responsibility for the destruction of draft files at Jamaica Plain, Dudley, Uphams Corner and Copley Square in Boston on November 7. Through this offence to good taste and to law and order we make ourselves responsible for our lives and for the lives of our brothers.

We destroy some of these files today in Washington because we believe that the Peace Movement must seriously consider its responsibility to MOVE. We, as you, have marched, written letters, conferred with officialdom, spoken against the war, capitalist materialism, and military control. Mr. Nixon responded to our and your pleas in his November 3 speech, and we responded to these same pleas in Boston on November 7. If you feel as we do that marching and demonstrating are unproductive, we encourage you to take responsible action to secure peace and to end injustice.

We have fashioned hope with our bodies, as free people must do. We oppose with our lives genocide in Viet Nam and the arms race, exploitative investment abroad, rape of foreign manpower and resources, domestic racism, environmental ruin, and militarism in any form--Selective Service, lottery, or volunteer army.

We attack Selective Service because it illustrates the powerlessness of all Americans, as well as the arrogance of power. It is to return control to the one, and to check the other, that we have acted. We believe that it will be impossible to reconstruct the draft records in Boston. All 1-A and 1-Y files were destroyed, as were files for resisters, delinquents, non-registrants. Chronological ledgers, alphabetical cross reference systems and minutes of draft board meetings were also destroyed.

Our action demonstrates that non-violent civil disobedience can effectively halt injustice. To us, such action is a profound moral and political duty, necessary to exalt life and secure peace. To these ends we deplore terroristic attacks which endanger life and engender fear.

Peace,

## G. MISCELLANEOUS

On May 27, 1971, [ ] advised that [ ] family formerly resided in that community but moved from the area approximately two years ago to around the [ ] area. She advised that CARL ELLIS DE WEASE died approximately five to six years ago, and that [ ] with eight children of whom [ ] she believes there are five boys and three girls in the [ ] family. U

[ ] stated [ ] has not been known to have been in or around the [ ] area for two or three years. Prior to his leaving the area, it was rumored he might be experimenting in the use of drugs and narcotics; however, she knew nothing specific concerning this. U

On May 27, 1971, [redacted]

[redacted] mother of [redacted] acknowledged she was her son. She stated she was aware of his "deep-seated convictions" regarding military service and the current draft laws. While she held similar convictions, she did not fully agree with her son on active resistance to these laws or any laws. She stated she felt passive resistance was the proper manner in which to oppose any law one did not believe in or held a conviction against, and that a passive resistor must be ready to accept the full punishment of the law for his or her resistance. She feels her son would accept any punishment meted out for his destruction of his draft cards and for his failure to carry them in his possession. She does not know his attitude toward accepting punishment for more active resistance, and, for this reason, she did not care to discuss his past activities; she felt this decision should be left by her up to her son. She advised she knew her son's current residence address, but that she did not desire to furnish same to the FBI until such time as she had had the opportunity to correspond with him and advise him she was going to do so. She stated she did not want to appear uncooperative; however, she feels whatever the interest in her son may be it is his decision to make, not one for her. She stated she would furnish his address at a later date. U

b6  
b7C

[redacted] did advise that she did not know of any gainful employment her son had engaged in since graduating from high school. She further advised she had last seen him in Baltimore, Maryland, in October 1970, when he visited her for a day when she was confined to a hospital there. She advised that prior to that time, according to his letters, her son had been in Philadelphia, Pennsylvania; New York, New York; and Boston, Massachusetts. Since October 1970 to her knowledge, he has been out in the western part of the U. S., in Missouri, Kansas and most recently in Denver, Colorado. U

## II. ACTIVITIES

On November 21, 1969, KC T-2 advised that an individual named [redacted] is a [redacted] and one of those who recently participated in destruction of files at several draft boards in the Boston, Massachusetts, area. KC T-2 stated that [redacted] was in Philadelphia, Pennsylvania, on November 17, 1969, for the purpose of addressing the Philadelphia resistance group opposed to the draft in Philadelphia. KC T-2 further advised that [redacted] had been living at a house owned jointly by several peace and anti-war groups located at [redacted] Pennsylvania. U

An article appeared in the "Boston Herald", a daily newspaper published at Boston, Massachusetts, page 16, dated November 25, 1969, captioned "'Boston 8' Urges Public to Close Draft Centers." This article stated a press conference was called by the "Boston 8" who confessed destroying thousands of draft cards at six Boston Selective Service offices two weeks previous. DARRELL DE WEASE, age 22, of Philadelphia, Pennsylvania, said "There is a need to educate people in the neighborhood in which we acted, primarily lower classes, and to educate people to proper response to our actions." U

The following is the statement of the "Boston 8" left at each draft board: U

"We claim responsibility for this offense to good taste, and to law and order. This is our work at Jamaica Plain, Dudley Street, Uphams Corner and Copley Square. By it, we make ourselves responsible for our lives, and for the lives of our brothers. U

"We are eight Americans who have exhausted 'legitimate dissent' - marches, letters, conferences with officialdom, speeches against the war, against capitalist materialism, against military control. All to no avail, all hopeless to effect just change. U

"We will now fashion hope with our bodies - as free people must do. We oppose with our lives exploitative investment abroad, rape of foreign manpower and resources, genocide in Vietnam and ARMs Race, environment ruin and domestic racism. And militarism in any form - Selective Service, lottery or volunteer army. U

"We attack Selective Service because it illustrates the powerlessness of the young, as well as the arrogance of power. It is to assist the one, and to check the other that we have acted. U

KC 100-14022

"But we insist on moral and non-violent disruption. To us, this kind of civil disobedience is a profound moral and political duty, as necessary to exalt life as to secure the peace. All life, and power to the people, justice and freedom to all. U

"At an opportune time, we will identify ourselves publicly. Let life prevail! U

"The Boston Eight" U

By communication dated November 19, 1969, the Washington Field Office furnished a Xerox copy of the statement of the "Boston 8" which was handed out in Washington, D. C. near the Lincoln Memorial on November 15, 1969, which is as follows: U

On March 16, 1970, KC T-3 advised that [redacted] a self-proclaimed member of the "Boston 8", who vandalized six local draft boards in Boston, Massachusetts on the night of November 7-8, 1969, stated he would be in St. Louis, Missouri, on March 19, 1970, for demonstrations against the draft and military recruiting and that after that date he would return to Philadelphia, Pennsylvania. According to KC T-3 [redacted] was encouraging individuals to enter draft boards en masse but to leave as soon as the "cops" said to in order to avoid arrests. KC T-3 advised that no incidents occurred and there were no violent confrontations or arrests made in the demonstration against the draft on March 19, 1970. U

b6  
b7C

On May 27, 1970, KC T-1 advised that an individual named [redacted] is presently in Kansas City, Missouri, and advised that he will be working in the Kansas City area in connection with draft resistance work in this area. KC T-1 stated that [redacted] claimed to be originally from Boston, Massachusetts, and has mentioned being active in the draft resistance movement in Philadelphia, Pennsylvania. He claims he has been to Cuba in recent months. U

On August 11, 1970, KC T-1 stated that [redacted] has recently returned to the Kansas City area from a vacation in the east, and it has been determined he is attempting to form an organization known as the Kansas City Resistance. U

An article appeared in the "Collective", Volume I, Number 1, an underground type newspaper, dated August 7-21, 1970, which listed a course called "Study in Nonviolence," [redacted]

On September 22, 1970, KC T-1 stated that [redacted] [redacted] has formed an organization known as the Kansas City Resistance and is presently attempting to get recognition of this group at the University of Missouri at Kansas City (UMKC). U

b6  
b7C

On September 28, 1970, [redacted] [redacted] Northeast Missouri State College, Kirksville, Missouri, furnished a letter and flier which stated that [redacted] was connected with the Kansas City Resistance in care of [redacted] [redacted] stated he was attempting to set up a speaking tour in the Kansas and Missouri area and would be speaking on the subject of the draft and Vietnam war. Persons interested could contact either [redacted] through [redacted]

[redacted] also identified himself as a member of the "Boston 8" and furnished the statement of the "Boston 8" concerning their destruction of draft records on November 7, 1969. U

On November 22, 1970, KC T-4, who is familiar with some phases of Students for a Democratic Society (SDS) Weatherman activity in the Kansas City area, advised that [redacted] of the SDS in the Kansas City area. [redacted] of the SDS prior to April, 1969 when [redacted] of the SDS. When [redacted] the SDS in the Kansas City area, [redacted] joined them, however, later in the fall of 1969 she became less active in the SDS and became more concerned with activities of the Women's Liberation Movement and is presently active in that group in the Kansas City area. U

b6  
b7C

Weatherman, formerly a faction of SDS, controlled the SDS National Office from June 1969 until its closing in February 1970. Weatherman then entered an underground status and adopted a tactic of "strategic sabotage," with police and military installations designated as primary targets. U

SDS was founded during June 1962 at Port Huron, Michigan, and in the 1960's functioned as the leading New Left campus-based student organization in the United States. From a stance of "participatory democracy," the SDS moved to a radical-revolutionary position. It maintained a national office at 1608 West Madison Street, Chicago, Illinois, until February 1970. Internal factionalism during 1969 produced three main factions: Weatherman, Revolutionary Youth Movement (RYM), and Worker Student Alliance (WSA). The Weatherman and RYM no longer consider themselves associated with the SDS. The WSA faction continues to use the name SDS. U

On September 28, 1970, KC T-1 advised that [redacted] has long been a member of the SDS and other militant type New Left groups in the Kansas City area and she has been seen in the company of [redacted] on the UMKC campus on numerous occasions. U

b6  
b7C

On November 16, 1970, a pretext telephone call to the [redacted] Kansas City, Missouri, revealed that [redacted] was no longer in the Kansas City area although he had been living with [redacted] and her friend, [redacted]. U

KC 100-14022

It was additionally determined through another pretext telephone call on December 14, 1970, to the residence of [redacted] [redacted] had departed Kansas City a couple of months ago and his last known address was [redacted] U

On November 16, 1970, KC T-4 advised that [redacted] [redacted] were formerly associated with the now defunct SDS in Kansas City, Missouri. U

On April 12, 1971, KC T-1 advised that there is no indication that [redacted] has been in the Kansas City area in recent months. U

b6  
b7C

On August 8, 1970, [redacted] Bureau of Narcotics and Dangerous Drugs, New Custom House, Denver, Colorado, telephonically advised that he and another Narcotics Agent had occasion to interview two individuals observed in the New Custom House courtyard area. It was determined they were apparently making a detailed diagram of the layout of the New Custom House with particular note as to how low the first floor was in relation to the ground. [redacted] stated it was determined one of these individuals was [redacted] who identified himself only as being from the Kansas City, Missouri area. U

On May 21, 1971, [redacted] [redacted] Lookout Mountain, Golden, Colorado, was telephonically contacted to determine if he was amenable for interview regarding the present whereabouts of [redacted] [redacted] stated he would furnish no information to the FBI inasmuch as he did not like the FBI because of the type of work in which they were engaged. U

[redacted]  
Lookout Mountain, Colorado, which was once associated with the Institute for Study of Nonviolence, Palo Alto, California, headed by folk singer JOAN BAEZ. The Institute Mountain West purports to be a nonviolent, anti-draft group dedicated to a "living revolution." U

[redacted] appeared at the Denver Office of the FBI, Denver, Colorado. At the outset of the interview [redacted] was very belligerent, but during the interview became very affable. U

[redacted] stated he is an anarchist and has disassociated himself with the United States Government. He stated he has lived in communes since he was 15 years of age and the Government has always "hassled" him. He said until a short time ago he intended, and was attempting, to tear down the United States Government, but now has disassociated himself from the Government and is building a new life based on freedom. U

He said he has the ability to make everything he needs without depending on society to furnish him his needs. He said he is an accomplished carpenter, saddle maker and farmer. He said he is also a good sailor. He said he and fifteen other men and their women are establishing a place to live. This place is a communal farm and they are in the process of building buildings. He said now they are almost all residing together but will each eventually have their own residence on the farm. He said he hopes to eventually purchase property in the Ozark Mountains and establish a communal farm there. U

He said his woman, [redacted] is eight months pregnant. She does not intend having the baby in the hospital as [redacted] claims this affects a baby's health and prospects for a long life. He said the hospitals give women sedatives which cause the child to stay in the birth canal longer and thereby eventually shorten its life. He said a child, when born in a hospital, does not open its eyes for several days, whereas when a child is born naturally, it opens its eyes within a few hours. He said he and [redacted] are not married. U

[redacted] said that he has been operating a leather business but has closed this business, and before that had helped another group of people set up a collective farm. He said he taught them some farming and helped them build their

[ ] said he has traveled some in the east since coming to Colorado from Kansas, but his woman [ ] has not traveled with him. He stated he did not participate in the burglary of the Media, Pennsylvania Resident Agency or the attempted burglary of the Garden, City New York Resident Agency. He said if he knew the identity of the persons responsible, he would not reveal same, but would admit that he knew who they were. He advised if he had participated in the attempted burglary of the Garden City Resident Agency, it would not have been an attempt but would have been a burglary. He stated he always accomplishes what he sets out to do. U

b6  
b7C

When questioned concerning the Media and Garden City Resident Agency burglaries [ ] expressed what appeared to be complete surprise, stating that he did not know that any FBI establishments had been "hit". He further stated that he does not listen to the radio, watch television or read the newspapers. He said he had heard that FBI documents had been mailed to newspapers and congressmen in the east but he had not heard where these documents came from. U

[ ] said he would not furnish his telephone number or address due to fear of arrest for his past activities. He said the fear is on the part of his woman, [ ] who became very upset when she learned last Friday the FBI was trying to locate him. He said he was aware the FBI had interviewed a person in South Dakota and one at the Institute Mountain West, Golden, Colorado, regarding his whereabouts. He said he considers this a form of harassment and came to the FBI office not to cooperate by furnishing any information but to complain of the harassment of his friends. U

b6  
b7C

[ ] stated he formerly worked with the Quaker Action Group and with the Draft Resisters and has committed destructive acts against Selective Service records on several occasions. He said he has served time for some of these acts. He said he was a member of the "Boston 8" and the FBI is aware of acts which they committed for which he has not been prosecuted. U

[redacted] stated he participated in a sit-in of a Selective Service office in Media, Pennsylvania, and that this sit-in was broken up by Federal officers. U

b6  
b7C

He stated his mother is a [redacted] in Maryland and is doing an excellent job. He said he is the oldest of eight children. He said he was influenced by his religion to fight against the draft and the war in Vietnam and he has made a sailing trip to both Cuba and North Vietnam, stating "You have heard of the Phoenix." U

He said he lived in a commune in Connecticut where several of the inhabitants were killed and only one man out of about fifteen was ever brought to trial for these murders. He said he has also lived in a commune at Taos, New Mexico, and several inhabitants of this commune were killed and the police have taken almost no action. He said he recently heard the same thing happened in Montana where three or four inhabitants of a commune were killed and almost no action was taken by the police and no national publicity was given to the occurrence. U

He said he has as little respect for newspapers as he does for the Government and the police. He stated he feels that this part of the country, referring to Colorado, is a much better place to live than the east or the south as the police and the inhabitants of this area are not as inclined to harass his people. U

Referring to the recent disturbances at Boulder, Colorado, he stated the type of people causing those disturbances are not his people as they are out to destroy and he and his people are now dedicated to building their own communities. U

He stated what he finds wrong with the United States Government is that the politicians and the wealthy people are living their lives at the detriment of other people ; that that is why he originally set out to tear down this Government and the reason he has now disassociated himself with the Government. When asked what other form of government he felt would be better than this form of government,

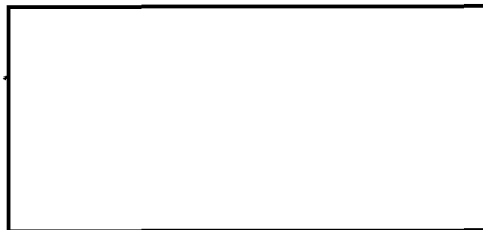

DN 100-10387

he said he knows of no other forms of government which are better but that he and his people are using freedom as their foundation for their new lives. He stated the people in the United States are not really free and that they are continually hassled by the Government and the police. U

The following is a description of [ ] obtained from observation:

[ ] advised that he has an excitable temperament. He also advised that his mother resides in Maryland. U

The Resident Agencies at Media, Pennsylvania, and Garden City, New York, mentioned above, are FBI offices. U

Mr. Rosen's memorandum to Mr. Sullivan 4/20/71 recommended Cryptanalysis-Gambling-Translation Section (in conjunction with Research Section of DID) set up project to make comparative analysis of the numerous documents apparently authored by the so-called Citizens' Commission to Investigate the FBI with writings and oral addresses of primary suspects being obtained by field during course of investigation in this matter. U

My memo 5/12/71 set forth the scope of our analysis of specimens using the computer. U

We have received 101 specific requests from Field Offices for comparisons with these specimens and answered 100 by Laboratory Report.. One is currently being examined. We have examined available writings of the twenty-five prime suspects, defined by the General Investigative Division, and the four subjects on the attached list, including transcripts of press conferences and other oral statements made by these individuals on radio and TV interviews. U

Nothing of significance from a linguistic and style-of-writing standpoint was found other than those set forth in Laboratory Reports 6/10/71, 6/25/71 and 7/8/71, copies attached. U

You will be kept advised of any significant developments in our continuing analysis of materials in this matter. U

Specimens received 5/15/71

b6  
b7C

Kc4359 One page handwritten statement reportedly authored by [redacted] which begins, "On December 16, 1970...." and ends "... for their independence." U

Result of examination:

Similar word usage and sentence structure were noted between specimen Kc4359 and MEDBURG specimens Qc93 and Qc101, but these similarities are of such a limited nature that no definite conclusion could be reached as to whether or not they were composed by the same individual. No language or linguistic style-of-writing characteristics were found in Kc4359 to indicate similarity or dissimilarity with the language characteristics of MEDBURG specimens Qc33, Qc95, and Qc147, composed by the Citizens' Commission to Investigate the FBI. U

It was noted that Kc4359 refers to "S.E. Asia" in two different paragraphs and MEDBURG ATTEMPT specimen Q59 uses the unabbreviated form "Southeast Asia." U

Disposition of specimen Kc4359 and result of document examination handled separately. U

Remarks:

The BELL case mentioned in attached report has  
Bufile 25-614038. U

As set out in the attached result of examination, there are similarities in vocabulary which indicate that the same person or persons who composed the items in the BELL case could have composed the MEDBURG specimens, but there is insufficient corroborating support to warrant an explicit identification of those two sets of texts as having been authored by the same person or persons. Request received 5/27/71 and described in Laboratory report 6/1/71.  
~~XXXXXXXXXX~~

Result of examination:

The text of items submitted in case entitled "SISTER BEVERLY ANN BELL; ET AL.; SSA;DGP;" was compared with the text of MEDBURG specimens and similar use of words such as "perpetuating," "repression," and "responsibility"; phrases such as "on the night of," "Brothers and Sisters"; and the use of "we" as the subject of numerous sentences was noted. Other than above similarities, no linguistic style-of-writing characteristics were found in these items to indicate significant similarity or dissimilarity with the language characteristics of MEDBURG specimens, composed by the Citizens' Commission to Investigate the FBI or GARDENBURG ATTEMPT specimen Q50. letter dated 7-8-68, and letter dated 4-67,

[redacted]

ALSO RECEIVED: Two photographs of [redacted]

## Result of examination:

It was determined that the typewriter impressions on K4000 were not prepared with the questioned typewriter used in the preparation of specimens previously submitted in the LEBURG, EASTON and GARDNER - ATTEMPT cases. U

It was also determined that the hand printing, K4000, was not prepared by the writers of the questioned hand printing in the LEBURG and EASTON cases. The hand printing, K4000, is not sufficiently comparable with the questioned material in the GARDNER - ATTEMPT case for meaningful comparisons to be made. U

SUBJECT: WASHINGTON POST ARTICLE,  
7/4/71, ANALYZING MEDIA  
BURGLARY DOCUMENTS

*0 MEDBURG*

The 7/4/71 "Washington Post" carried an article (copy attached) by William Greider entitled "Analysis of Stolen FBI Documents Provides Glimpse of Bureau at Work." Greider has written previous articles of this sort in which the Bureau is subjected to snide criticisms under the guise of objective reporting. The 7/4/71 article is typical of the Greider style of yellow sheet journalism and like the others injects unwarranted criticism into a so-called analysis of the various FBI documents stolen from the Media, Pennsylvania, Resident Agency which have made their way into the hands of several newspapers. *U*

Greider claims that the Media documents offer an unprecedented glimpse of how the U.S. Government watches its citizens, and he adds gratuitously "particularly black citizens." The latter thought obviously intended to falsely convey the impression that the Government, namely the FBI, is giving undue investigative attention to blacks. At least half of the article is devoted to the fact that the FBI has spent considerable time (at least in the Philadelphia area represented by the Media documents) checking into the activities of black individuals and organizations. And even though Greider mentions, but glibly glosses over the fact that the FBI's sole interest in individual blacks or black organizations lies in the area of extremism and in the critical question of potential for racial violence, he manages to sketch a picture of latent if not glaring racism on the part of the FBI. In this connection the reading public that is truly concerned about the matter of extremism and obvious potential for racial violence will clearly see through Greider's transparent effort to paint a racist label on the FBI. Naturally there are those of the ultra liberal camp, who are already aligned against the Bureau, and such articles offer some comfort. *U*

The various individual documents covered by the Greider article have previously been publicized by not only the "Washington Post" but by other newspapers, particularly the liberal papers such as the

Memorandum to Mr. C. D. Brennan  
RE: WASHINGTON POST ARTICLE, 7/4/71,  
ANALYZING MEDIA BURGLARY DOCUMENTS

As an example, the memorandum from the Philadelphia supervisor (for which he has been administratively dealt with) suggesting that Agents enhance the "paranoia endemic in these circles, etc.," has been described numerous times previously in many different publications. Yet, Greider, to use an old cliché, is beating a dead horse by giving further attention to it. U

Although previously given a great deal of mileage in the liberal press, Greider again calls attention to a piece of Bureau-originated mail instructing the field to gather information concerning black students who might be under the influence of the Black Panther Party and other extremists. Another case cited by Greider is the much-publicized case of our investigation of an individual in contact with persons in East Germany, which individual turned out to be a fourteen-year-old boy. Greider also felt an obligation to dredge up the case involving our investigation of [REDACTED]

b6  
b7C

Greider, through manipulation of the language and clever use of semantics and innuendoes, has twisted the known facts in an effort to make it appear that the FBI has engaged in activities which are beyond the scope of its authority or even responsibility. He has attempted to show that the FBI has conducted investigation, or to use his words placed persons under surveillance when the facts do not warrant such action, or when the facts indicate such activity should be discontinued. He has quoted from former Special Agents who have become lackeys of jackals such as himself. Although the identity of such former Agents is not disclosed, it is obvious that he is using tripe from assorted malcontents who have no real knowledge of the Bureau's overall responsibility and authority. A good example of this is the alleged quote from a former Agent, "The Bureau has a tendency never to purge its files." U

Detailed analyses of the various Media documents referred to in Greider's article have previously been provided in memoranda for the Director's information, and in cases where such documents have been the subject of prior publicity, facts concerning the documents have been furnished to the Attorney General. U

ACTION:

This is for the information of the Director. Separate memorandum being submitted covering aspects of ghetto informants referred to in the Greider article. U

The painstaking review of the files of the Philadelphia Office in connection with the documents stolen from the FBI Resident Agency (RA) in Media, Pennsylvania, on the night of March 8, 1971, has revealed 65 of the original 1013 items listed as stolen have been accounted for. U

The following is a break-down of the stolen document.

948 Total items stolen.

104 This group consists of routing slips, recent interview report forms not yet in file, and other forms, and memoranda of which the original document was maintained at the Media RA and no copies are available. U

844 Total number of items forwarded to the Department in conjunction with the March 23, 1971, request of the Attorney General.

Our Philadelphia Office reports that 77 of the stolen documents have been identified as having surfaced in various news media. Nine of these are original documents. Continuous assessment by Philadelphia of news media data is being conducted to identify additional stolen items which may have surfaced. U

Copies of all of the missing documents are being maintained in a bound volume by the General Investigative Division. Copies of the log listing all of the stolen documents have been made.

APPEND 80-122440

A review of this matter by the Bureau has reflected that the Human Resources Administration (HRA) was under investigation by the local authorities of New York City during 1968. This investigation reflected the HRA maintained minimum records regarding disbursement of their funds making it almost impossible to establish responsibility for the missing appropriations. U

During 1968, several Congressmen wrote to the Bureau requesting the FBI conduct an investigation into the misappropriation of funds under the control of the HRA. This matter was referred to the Department and the Department did not request the Bureau to conduct an investigation inasmuch as the local authorities were working the case and our investigation would be a duplication of efforts. U

In view of the above, New York should not conduct an F.G investigation of Grady. U

NOTE:

We had previously received information from our New York Office indicating Grady, who is the prime subject in the Medburg investigation, may be involved in the embezzlement of several thousand dollars in funds granted to the Cornelius J. Drew Foundation, a New York City agency under the direction of the Human Resources Administration. The Bureau instructed that no investigation be conducted into this matter without prior Bureau authority in view of Grady's continuing involvement in Medburg and the possibility he may be involved in setting up new break-ins of FBI and other Government space. U

Philadelphia has suggested pursuing a possible FAG violation against Grady in order to bring as much pressure to bear against him as possible. U

In reconsidering this situation, it should be noted the alleged embezzlement by Grady would have taken place prior to 1967. Considerable investigation has been conducted by local authorities and IRS. Since that time, testimony has been heard by local grand jury, and over the years, in spite of Congressional inquiries, the Department, being made fully aware of the situation, has made no request for FBI investigation since to do so would be a needless duplication of effort with local authorities. In view of our past position and since entering this investigation at this late date could present serious investigative problems, Philadelphia's request is being denied. U

Re Bureau airtel to New York, 6/15/71, captioned "JOHN PETER GRADY; FAG," and New York airtel to Bureau, 6/17/71, captioned "JOHN PETER GRADY; MISC INFO CONCERNING (MEDBURG SUSPECT)." U

Referenced airtels referred to a possible FAG violation on part of GRADY while he was Director, Cornelius J. Drew Foundation (CDF), 212½ West 141st Street, New York City, beginning 10/25/66. CDF was under the direction of Human Resources Administration (HRA), an agency of the City of New York, Community Development Agency. CDF was responsible in accountability to HRA, which, in turn, reported to the City of New York. The purpose of CDF was the operation of Project Head Start. The program was completely funded by a Federal grant under the Office of Economic Opportunity (OEO). OEO submitted project grants to the City of New York, which disbursed the funds to the designated agencies. U

Referenced communications indicated total grants to CDF amounted to \$232,295.00. The program was directed by GRADY, until his termination in September, 1967. HRA officials advise that currently over \$40,000.00 of the grant has not been properly accounted for.

Referral/Consult

[redacted] of Anti-Poverty Programs, Office of the Controller of the City of New York, Municipal Building, New York City, advised that his department is presently involved in reconciling approximately \$8,000,000.00 in accountabilities owed to the City of New York by several anti-poverty agencies that received Federal and city grants under the Economic Opportunity Act. He advised that CDF was one of these agencies, and indicated the current total accountability, composed entirely of Federal funds, is \$56,342.30. U

b6  
b7C

For ready reference at the Bureau, there are attached five copies of New York's letterhead memorandum, dated 6/9/71, captioned "JOHN PETER GRADY; FRAUD AGAINST THE GOVERNMENT," as well as five copies each of pages 4, 5, 6 and 7 of the administrative insert of New York's airtel dated 6/17/71, captioned "JOHN PETER GRADY; MISC INFO CONCERNING (MEDBURG SUSPECT)."

SAC, MEDBURG, of opinion that we should make every criminal case possible against GRADY, as he is the "action" man of the EASTCON group. Current investigation places him in at least ten "break-ins" of Draft Boards and FBI RA, as well as several state traffic violations. He is currently planning other "actions." No process is now outstanding, and it would be to the Government's advantage to have a warrant for his arrest. Consequently, if the New York Office can make a good FAG case against GRADY, it would assist materially in curtailing his activities. While the Philadelphia Office hopes to intercept GRADY (and his associates) on his next venture, the recommended FAG investigation would not interfere with those plans.

PH 46-NEW

Bureau requested to authorize the New York Office  
to proceed with FAG investigation. U

REPORT  
of theFEDERAL BUREAU OF INVESTIGATION  
WASHINGTON, D. C. 20535

To: SAC, Philadelphia (25-41932)

Date: June 23, 1971  
FBI File No. 25-603693  
Lab. No. D-710618081 KU  
D-710528040 KURe: [redacted] et al.;  
BSA; DGP - CONSPIRACY  
MEDBURG

Specimens received 5-20-71 from Philadelphia

Q84 Receipt dated 12-4-69, signed [redacted]

Q85 Apartment Lease dated 12-4-69, signed [redacted]  
and [redacted]

Request received 5-28-71 from Philadelphia.

Request comparison of K4570, K4695 (MEDBURG), Item 4 and Item 22  
[redacted] with lease of [redacted]

## Result of examination:

It was concluded the hand printed portions of specimen Q91 (Your item 4) were prepared by PAUL BERNARD COUNING, K4570 and K4695 (MEDBURG). Due to hand printing variations or the extremely limited amount of known handwriting available for COUNING, it could not be determined definitely whether he did or did not prepare Q92 through Q97 (Your item 4), Q137 (Your item 22), or the remainder of Q91. U

Due to the limited amount of known handwriting available for COUNING, it could not be determined definitely whether he did or did not prepare any of the questioned handwriting on Q84 and Q85. A few handwriting similarities were observed. It could not be determined definitely whether the questioned handwriting on Q84 and Q85 was or was not prepared by [redacted] since no known handwriting is available for this individual, it being noted her fingerprint card under Oakland Police Department [redacted] does not bear her signature. This fingerprint card indicates she was born on [redacted] in California. U

It was concluded the questioned handwriting on Q84 and Q85 was prepared by the writer of the questioned handwriting on Q91, Q93, Q94, Q96 and Q97. It could not be determined definitely whether this individual also prepared Q137, due to the illegible nature of the questioned handwriting on that item. However, similarities were observed when the questioned handwriting on these pieces of evidence was compared. Inasmuch as Q84 and Q85 contain no hand printing while portions of Q91 and all of Q92 and Q95 are hand printed, an adequate comparison was not possible with respect to these items. U

The submitted evidence was photographed and will be returned separately. U

Request comparison of known handwriting and hand printing of  with specimens in case entitled,  et al.; Destruction of Records at Selective Service System Boards, 1421 Cherry Street, 3701 North Broad Street, 3702 Kensington Avenue, Philadelphia, Pa., 2-7-70, SSA; DGP - CONSPIRACY"U

## Result of examination:

It could not be determined definitely whether any of the questioned handwriting or hand printing on Q1 through Q617 in the  case was or was not prepared by  whose available known handwriting consists of Kc4952 (MEDEBURG) due to the absence of comparable known standards in some instances and to the presence of unexplained variations or the illegible nature of the questioned items in other instances.U

It is realized that coverage of the subject is difficult due to the fact he lives in a commune with others and there is a restriction against surveilling full time any EASTCON subject indicted for criminal contempt. However, it is believed that efforts should be made to keep aware of some of his activities and whereabouts. U

Boston is, therefore, requested to submit a weekly airtel showing the results of spot checks, a review of toll calls, and any other coverage deemed advisable so that we can at least be aware of whether he is in the Boston area. U

Specimens received 5-6-71, listed in Laboratory report dated 6-17-71

## Result of examination:

It was concluded the following material was prepared by [redacted], whose known handwriting consists of K1 [redacted] Most of Q4; Most of Q5; Q22; Q44; Q160; Q161; most of Q162; most of Q163; Q164; Q165; the legible portions of Q166; Q167; Q171; Q173; Q174; Q176; Q178 through Q180; the legible portions of Q182 and Q183 (except for page G3 on which differences were observed which indicate [redacted] did not prepare this page); Q213; Q266; Q342; Q343; Q346; Q350 through Q352; Q360 through Q362; Q364; Q367; Q370; Q371; Q400; Q456; Q526; and Q562 through Q566. Similarities were observed which indicate [redacted] also probably prepared portions of Q19, all of Q168, portions of Q169, all of Q170 and Q172, the back of Q175 and all of Q183. U

b6

Due either to the limited nature or comparability of the available known standards or to the limited or illegible nature of the questioned material, it could not be determined definitely whether any of the unidentified questioned handwriting or hand printing on Q1 through Q617 was or was not prepared by any of the following individuals:

Re Alexandria airtel to Bureau dated 6/10/71, and Philadelphia letter to Bureau dated 3/13/71, enclosing a list of items stolen from the Media, Pa., Resident Agency. U

A review of Philadelphia file 100-48677 entitled, "A QUAKER ACTION GROUP; IS - MISC," has shown that serials 448, 460 and 461, described below are missing from the file and presumed to have been stolen in the captioned burglary inasmuch as they were charged out at the time of the burglary to the Media Resident Agency. U

Newspaper stories published since the burglary contained information which would tend to indicate that one or all three of these serials have been furnished to newspapers. However, it is not possible for Philadelphia to determine due to the limited amount of material which of these three serials surfaced and further, whether or not the contents of the newspaper article actually referred to the contents of the serials. U

Enclosed for the Bureau and six copies each of the three serials as follows: U

A QUAKER ACTION GROUP  
DEMONSTRATIONS AT THE PENTAGON

Appen. 1  
90-1227

On July 10, 1969, a spokesman for the Pentagon Security Police, General Services Administration (GSA), advised that a group of about 30 affiliated with A Quaker Action Group (AQAG), arrived at the Pentagon Building at 12:40 p.m. on July 10, 1969, to picket and protest U.S. action in Vietnam. By a previous agreement reached between Department of Defense Officials and members of AQAG on July 2, 1969, the group was permitted to picket peacefully at the river entrance to the building. However, by agreement they were not to be admitted to the concourse area inside the building which consists of many public shops and stores. Six protestors lined up outside the river entrance across from the parking lot and held three signs reading, "End War, Fight Hunger," "Too Many People Have Died," and "End the War, Rebuild Our Cities." Ten to twelve other protestors sat or stood on the Pentagon steps at the river entrance and took turns reading a list of Vietnam war casualties. The protestors ranged in age from about 20 to 60 and were composed of both males and females and were predominately white. The group was led by [redacted] of AQAG. U

b6

At the same time the above demonstration was occurring, a counter-demonstration occurred outside the river entrance near the parking lot. There were two male adults and two teenage boys protesting the presence of AQAG and they held signs reading, "Aid to America's Enemies, Courtesy of Parasites and Timid Politicians" and "Why This Ghoulish

At approximately 12:50 p.m. on July 10, 1969, another group of six to ten members of AQAG who had entered the Pentagon shortly after their arrival in the area, began reading a list of the Vietnam War dead in the concourse area of the building. Shortly thereafter they were told to disperse by [redacted] Assistant Chief, GSA Guard Force, and that their presence was in violation of GSA rules and regulations. MADDOX indicated an opportunity would be given them to disperse as requested, however, they continued to read in violation of his order. He then ordered GSA policemen to arrest the six directly involved in the action. In the area but not arrested was [redacted] [redacted] of AQAG. The six arrested were taken before the U.S. Magistrate in Alexandria, STANLEY KING, and were charged with loitering. Those arrested were: U

On July 17, 1969, a spokesman for the Pentagon Security Police advised that a group of about 25 affiliated with AQAG arrived at 12:30 p.m. on July 17, 1969, to picket and protest U.S. Action in Vietnam. Some of these people went inside the Pentagon but approximately 18 of them remained outside at the river entrance on the steps and sidewalk where they read a list of the American War Dead in Vietnam, handed out a flyer, and displayed signs reading, "We Mourn Vietnam War Dead," "Fight War, -Fight Hunger," "End the War and Rebuild Our Cities." The flyer handed out was entitled, "Why Do We Speak Out At The Pentagon?" and was put out by AQAG with cooperating sponsors listed as the Catholic Peace Fellowship, Episcopal Peace Fellowship, Philadelphia Resistance and War Resisters League. U

Those who entered the Pentagon on July 17, 1969, went to the concourse area where they read a list of the war dead. Officials advised Department of Defense onlookers to separate themselves from the protestors as the protestors were to be arrested. DEMONSTRATIONS AT THE PENTAGON

On July 24, 1969, a spokesman for the Pentagon Security Police advised that a group of about 30 people affiliated with AQAG arrived at the Pentagon at 12:30 p.m. on July 24, 1969, to picket and protest action in Vietnam. Some of the protestors went inside the Pentagon but approximately 50 of them remained outside the river entrance on the steps and sidewalk where they read a list of the American war dead in Vietnam and handed out a flyer and displayed signs reading, "End the War, Fight Hunger," "End the War, Rebuild Our Cities," and "Too Many People Have Died." The flyer which was handed out was entitled, "Do You Know These Facts About the Vietnam War?" and was put out by AQAG with cooperating sponsors listed as the Catholic Peace Fellowship, the Episcopal Peace Fellowship, Philadelphia Resistance, and War Resisters League. U

The protestors who entered the Pentagon went to the concourse area where they read a list of the war dead. Officials advised them to stop or be arrested and when they did not stop, nine of the protestors were placed under arrest and taken before the U.S. Magistrate in Alexandria, where they were charged with trespassing under the Assimilated Crimes Act, Title 18, U. On July 31, 1969, a spokesman for the Pentagon Security Police advised that a group of about 30 people

affiliated with AQAG arrived at the Pentagon shortly after noon time to picket and protest U.S. action in Vietnam. At the main entrance to the Pentagon approximately 30 men and women sat on the steps and took turns reading the names of the American War dead in Vietnam. Across the parking lot nine demonstrators held photographic enlargements of Vietnam wounded and oppressed and a poster reading, "What Quakers See in Vietnam." Those on the steps had a poster reading, "We Mourn Vietnam War Dead." One counter-demonstrator carrying an American flag displayed a poster protesting the use of his son's name by the other demonstrators. The Quakers also distributed a flyer entitled, "Do You Know the Trust About Vietnam Troop Withdrawal?" This flyer was put out by AQAG with endorsements from the Catholic Peace Fellowship, the Episcopal Peace Fellowship, The Philadelphia Resistance and the War Resisters League. U

At approximately 1 p.m. on the concourse inside the Pentagon on July 31, 1969, about 20 men demonstrators gathered and attempted to hold a mock religious service on an interdenominational altar set up at the southern end of the concourse. Seven males and three females formed a semi-circle around the altar and three other men dressed in clerical garb placed a loaf of bread and a bottle of wine on the altar. They were asked to clear the area by Pentagon Officials and one of their group, who was taking pictures, started embracing the other demonstrators. This entire group of 14 was arrested and taken to the U.S. Marshal's Office in Alexandria. At that time Assistant U.S. Attorney [redacted] Eastern District of Virginia, advised that his office decided to release those arrested because they were attempting to hold a "religious exercise" on the altar of the interdenominational space reserved at the southern end of the concourse. Lab. No. D-710630083 LC

Specimens received 6-30-71

K5089 Passport Application dated 2-15-66, bearing known  
writing of KATHLEEN MARY RIDOLFI  
(MEDBURG)

## Result of examination:

It was determined that the writer of K5089 did not prepare the questioned material on specimens submitted in the MEDBURG, and EASTCON cases. The hand printing and signatures on K5089 are not sufficiently comparable with the questioned material on specimens submitted in the GARDEBURG - ATTEMPT case for meaningful comparisons to be made. Therefore, it was not possible to determine whether the writer of K5089 did or did not prepare the questioned material in the GARDEBURG - ATTEMPT case.

The submitted evidence is returned herewith.  
Photographs are retained.

## AN OPEN LETTER TO THE FBI

Among the files liberated from the Media, Pa., office of the Federal Bureau of Investigation early in March was a memorandum on WILPF dated September 24, 1965. Mr. Hoover's agency, aroused by our announcement that Martin Luther King, Jr., would speak at our 50th anniversary dinner, became concerned over possible communist infiltration of our organization. Attached to the memo and sent to FBI offices in 37 cities around the country was the list and biographical sketches of candidates for national board printed in our newspaper, *Four Lights*, July 1965.

We neither appreciate nor need the FBI's snooping on us or our members. We have always operated in an open manner. We welcome as members all who believe in working by nonviolent means to create the conditions which will make peace and freedom possible. We do not inquire into the political affiliations of those who wish to join us.

We have publicly and repeatedly rejected anti-communism as a basis for foreign policy or as a tactic for witch-hunts and political repression at home. We pride ourselves on our international outlook and on our sophisticated approach to political and economic questions. We recognized long before it became popular to do so, that communism is not monolithic, and that there are merits as well as imperfections in all existing forms of political and socio-economic systems. We do not believe in "devil" theories.

Invasion of privacy and violation of constitutional rights are serious matters to all citizens who believe in freedom. Technology with its advanced snooping devices and data banks makes the operation of information-gathering agencies a grave menace to liberty. We call for a curb on Big Brother, and resolve that we will not be intimidated by those who seek to discredit us or to distract us from our goals.

Specimens received 5-21-71

Requested to compare letters available at the Bureau written  
by  with any questioned documents received  
pertaining to MEDBURG

## Result of examination:

It was determined that the questioned hand printing  
on specimens submitted in the MEDBURG and EASTCON cases were  
not prepared by  whose known hand printing  
is available at the Bureau. The hand printing of  is  
not sufficiently comparable with the questioned material in the  
GARDBURG - ATTEMPT case for meaningful comparisons to be made.

## Result of examination:

It was determined that the typewriter impressions on Kc5088 were not prepared with the questioned typewriters used in the preparation of specimens previously submitted in the MEDBURG, EASTCON and CARDBURG - ATTEMPT cases. U

The handwriting and hand printing on Kc5088 is not sufficiently comparable with the questioned material on specimens previously submitted in the MEDBURG, EASTCON and CARDBURG - ATTEMPT cases for meaningful comparisons to be made. Therefore, it was not possible to determine whether the questioned material was or was not prepared by the writer of Kc5088. U

**PURPOSE:** To advise you of the results of our efforts to identify Xerox Models 660 and 2400 machines used to copy stolen Media documents and request permission to destroy the copies obtained from suspect machines that did not show identifiable characteristic marks. U

**FACTS:** During the investigation of the Media, Pennsylvania, Resident Agency burglary, examination of surfaced Xerox copies of stolen FBI documents revealed that specific markings were noted on some of the copies. It was determined that a Xerox Model 660 left a specific mark as did a Xerox Model 2400 machine and extensive efforts have been made to locate these two suspect machines. As of this date over 4,500 Xerox samples have been obtained and examined by the FBI Laboratory with negative results. These samples are currently being stored in the FBI Laboratory and no longer serve any useful purpose. Destruction of these samples would save space. The various field offices will maintain records as to the identities of Xerox machines examined. U

**ACTION:** If approved, The FBI Laboratory will be advised to destroy the previously examined Xerox samples. This request was coordinated with SAC Roy K. Moore at Philadelphia and he has no objection to the destruction of these samples. U

Evidence listed in Laboratory Report dated 6/17/71. RE-REVIEWED FOR MEDBURG APPLX 81-1227 SP5 RTH/ylc

## Result of examination:

It was concluded the questioned hand printing on the Q230 and Q262 surveillance cards was prepared by [redacted] K23, K24 and Kc25 (EASTCON). Similarities were observed when the known standards of this individual were compared with the questioned hand printing on Q10, Q18, Q227, Q233 and Q430, but a definite determination was not possible due to the limited nature of the questioned and known material. U

b6  
b7C

It was further concluded the [redacted] signatures on the Q117 membership card, the Q238 check and the Q243 marriage license, as well as the [redacted] name on the Q246 envelope were written by [redacted] Kc6 and Kc12 (EASTCON). U

The further conclusion was reached that the [redacted] name on the inside cover of the Q204 notebook was written by [redacted] Kc26 and Kc27 (EASTCON). Similarities were observed when his known standards were compared with the questioned hand printing on Q37 and the hand printed words "Mon job check & describe lock to d b door" on the bottom portion of Q288; however, a positive conclusion was not possible due to the limited nature of the known standards. U

Due either to the limited nature or comparability of the available known standards, or to the limited or illegible nature of the questioned material, it could not be determined definitely whether any of the remaining unidentified handwriting and hand printing on Q1 through Q617 was or was not prepared by any of the following individuals: [redacted] K10 (EASTCON); [redacted] Kc8, Kc13 and Kc15. (EASTCON); [redacted] Kc993 (MEDBURG); [redacted] K4995 (MEDBURG) and [redacted] K5008 (MEDBURG). Nothing of particular significance was observed during the above comparisons. U

b6  
b7C

The available known standards of [redacted] K5007 (MEDBURG) are too limited for adequate comparison with Q1 through Q617 in this case.

13 JUL 26 1971

NOTE: In order that there may be no misunderstanding on the part of Philadelphia and Newark relative to the action to be taken with the press or other outside sources concerning the intended break-in of the Federal Building at Camden, New Jersey, during the early morning hours of 7/26/71, we are going on record with these offices with respect to the Eastcon case. It is imperative the information they give to the press be confined strictly to the facts of the Camden break-in and that there be no mention of Berrigan and the Eastcon group involved in the current criminal proceedings in United States District Court, Harrisburg, Pa.

Result of examination: v

It was determined that the typewriter impressions  
on K5118 through K5120 were not prepared with the questioned  
typewriters used in the preparation of specimens previously  
submitted in the MEDBURG, EASTCON and GARDBURG - ATTEMPT  
cases. v

The Christensen and Wright signatures are not  
sufficiently comparable with the questioned handwriting and  
hand printing on specimens submitted in the MEDBURG, EASTCON  
and GARDBURG - ATTEMPT cases for meaningful comparisons to  
be made. Therefore, it was not possible to determine whether  
the questioned material was or was not prepared by [redacted]  
or [redacted]

[redacted] was questioned about the above identification and stated that he received the identification cards for [redacted] (LAST NAME UNKNOWN) in June of 1970, while both were working for the Colony House Incorporated, Rockford, Illinois. He obtained them for use as identification since he was not [redacted]. He declined to make any further statements regarding [redacted] since he did not wish to get him into any trouble. U

[redacted] claimed he knew nothing of the Federal Bureau of Investigation (FBI) Media RA breakin. U

Regarding the card for [redacted] he advised only that she was a former girlfriend of his. U

He advised that the AT&T credit card for [redacted] was given to him by [redacted] on one occasion when it was necessary to charge a phone call and he simply failed to return it. U

Inasmuch as two of the enclosed items bear stamp of Local Board number 60, Media, Pennsylvania, and could possibly be stolen, the laboratory is requested to compare the handwriting and typewriting with that submitted in connection with MEDBURG. Laboratory should also consider processing for latent fingerprints if it is felt it would be of value to MEDBURG investigation. U

This is to summarize the current status of our investigation of captioned matter and to consider future plans in connection with the development of information indicating a planned break-in at the Post Office Building, Camden, New Jersey, scheduled for July 25, 1971. U

John Peter Grady, a close associate of the Berrigan brothers, according to several sources, claims to have planned and participated in the Media burglary. He was allegedly assisted by Fathers [redacted] Peter Fordi, and Edward McGowan. In addition, at least three other alleged associates of the Berrigan group are believed to have participated. Through information recently developed, Grady has been pinpointed as the individual who masterminded at least 14 of the 18 break-ins of various Government facilities during the past two years. He currently heads up what is termed the "action group" and is reported reliably as being a staunch advocate of "hits" on Federal facilities as a means of embarrassing the Federal Government. U

b6  
b7C

During the past several weeks, we have been successful in inserting a highly productive source into a group led by Grady which is presently planning a break-in of the draft board office with alternate targets being Military Intelligence and the FBI Resident Agency, all located in the Post Office Building at Camden, New Jersey, a Government reservation. The early morning hours of Sunday, July 18, 1971, was the original target date. However, Philadelphia has now reported that, in all probability, the hit would be delayed until July 25, 1971, in order to allow elements from the Newark, New Jersey, area to participate. Under the direction of SAC Roy K. Moore, on special Medburg assignment, with the cooperation of SACs, Philadelphia and Newark, arrangements have been perfected aimed at apprehending these individuals red-handed. Hopefully [redacted] Fordi, and McGowan will participate in the Camden break-in as well as others involved in the Media burglary. Precautions have been taken to cover our Resident Agency at all times. In addition, personnel are on continual alert to swing into action should the hit date be unexpectedly advanced. U

Memorandum to Mr. Sullivan  
Re: Burglary of FBI Resident Agency  
Media, Pennsylvania, 3-8-71

With respect to the proposed Camden break-in, it was recognized from the outset that secrecy was imperative--both from the standpoint of protecting our source who has successfully associated himself to a very close degree with Grady and, more important, insuring there be no leak which would scare off Grady and his group. By memoranda June 28 and July 7, 1971, we pointed out the importance of keeping these plans confidential, it being imperative that there be no dissemination outside the FBI at this time. It is SAC Moore's recommendation we not alert at this time any agencies having an interest and/or located in the Post Office Building. This would include General Services Administration, the military, Selective Service, and Postal authorities. To do so might result in activity which could very well alert the alleged perpetrators who are very sensitive to any unusual activity and who have the Post Office under surveillance. U

It should be noted the Internal Security Division of the Department has requested it be advised of all matters having any possible connection with the Berrigan group. None of the individuals known to be planning participation in the Camden break-in are among those indicted with Berrigan in the Eastcon case. Nevertheless, it appears persons associated with the Berrigan group are involved in the planning of the Camden break-in and all seem to be inextricably intertwined in the Berrigan and Eastcon philosophies. U

It is also noted that in a memorandum dated March 29, 1971, the Internal Security Division indicated, in view of the interest of that Division in those individuals associated with Eastcon and the Berrigan supporters, they desired the Media case be handled in its entirety by the Special Litigation Section of the Internal Security Division. They also requested that in addition to communications, all prosecutive presentations should be made to the Special Litigation Section. U

**ACTION:** In view of the above developments indicating a tentative action date for July 25, 1971, it is recommended this matter be presented at this time to the Special Litigation Section well in advance of the target date in order that there can be no question concerning the propriety of our proposed action. The Bureau obviously must fulfill its responsibilities in this case which might involve the apprehension of from 15 to 25 individuals in the commission of the intended break-in of the Post Office Building. In order to preclude as much as possible any unforeseen difficulties,

it is recommended that SAC Roy K. Moore, who has the responsibility for the overall direction of this situation, be immediately instructed to report to Bureau Headquarters for a full discussion of his proposed plans. If approved, SAC Roy Moore, representatives of the Special Investigative Division and General Investigative Division, and Mr. Dalbey will present this matter to the Special Litigation Section of the Department with reference to the contemplated prosecutive action in the event a break-in should occur. GENERAL INVESTIGATIVE DIVISION

This concerns the proposed burglary of the Camden Federal Building. U

By separate communication, Philadelphia advised burglary of Selective Service Office, Camden Federal Building, planned for early morning hours of 7/26/71, did not take place. John Peter Grady and his group participated in dry run on Camden Federal Building evening 7/24/71 and Grady, although satisfied, felt security procedures could be improved and decided more practice was needed by his group. U

Attached advises source developed information that Medburg subjects Joe O'Rourke, Pete Fordi, and Ed McGowan may participate in this burglary. Source also developed that 12 other individuals (names not known) from Philadelphia may also participate. Grady advised source that [REDACTED]

(ASSERO) bearing handwritten and hand printed notations  
purported to be by  and  
photocopy of typewritten "RHODE ISLAND BAIL FUND" U

## Result of examination:

It was concluded the Kc10 typewriting was not prepared by the same typewriter used to prepare any of the questioned material in the following cases: MEDEBURG; EASTCON; GARDEBURG - ATTEMPT;  et al.; SSA; DGP - CONSPIRACY. U

b6  
b7C

Due to the limited nature of the Kc10 handwriting and hand printing, it could not be determined definitely whether  did or did not prepare any of the questioned handwriting and hand printing received in the MEDEBURG, GARDEBURG, and  cases. Nothing of particular significance was noted during these comparisons. U

Specimen Kc10 was photographed and is retained. U

Specimens received 7-16-71

Kc5117 Photocopies of six slides of paper bearing known  
writing of   
(MEDEBURG)

## Result of examination:

The known handwriting, Kc5117, is not sufficiently comparable with the questioned handwriting and hand printing on specimens submitted in the MEDEBURG, EASTCON and GARDEBURG - ATTEMPT cases for meaningful comparisons to be made. Therefore, it was not possible to determine whether the questioned material was or was not prepared by the writer of Kc5117. U

The submitted evidence is returned herewith.  
Photographs are retained. U

For your investigative assistance only, the examination  
of the questioned hand printing on Q81 enabled the observation of  
significant hand printing similarities when Q2, Q3, Q81 and Q143  
were compared with the known hand printing of JOHN PETER GRADY,  
Kc4374, K4789 and Kc4922 (MEDBURG). These similarities indicate  
the probability GRADY prepared this material and additional known  
hand printing of this individual would probably be of value. U

Specimens received 5/17/71

Q81 Envelope bearing hand printed address [redacted]

Q82 One-page typewritten letter dated 12/15/beginning "Dear J...U

Q83 Large brown envelope bearing hand printed address [redacted]

[redacted], New York" U

Result of examination:

The questioned typewriting on specimen Q82 was not identified with any of the questioned typewriting in the MEDBURG case. U

Due to the limited amount of comparable material, it could not be determined definitely whether any of the questioned hand printing on Q81 and Q83 was or was not identical with any of the questioned hand printing on Q1 through Q617 in this case. Some significant similarities were observed when the Q81 hand printing was compared with the hand printing on Q2, Q3, and Q143. These similarities indicate this material was probably all prepared by one person. U

It was concluded the questioned hand printing on Q81 and Q83 was not identical with the questioned hand printing in the MEDBURG case. U

The submitted evidence was photographed and will be returned separately. U

By memorandum dated November 3, 1971, it was recommended and approved that we take no action with respect to proceeding against Medburg subjects in the February 7, 1970, Selective Service break-in in Philadelphia, Pennsylvania, [redacted] case) until the United States District Court (USDC) in Harrisburg, Pennsylvania, had ruled on the admissibility of evidence gathered during the [redacted] investigation insofar as it concerned prosecution in the East Coast Conspiracy to Save Lives (Eastcon) case. U

The Director had previously instructed Mr. Dalbey, along with others, discuss with SAC Roy K. Moore the possibility of pressing for prosecutive action in the [redacted] case as a means of bringing pressure on Medburg subjects. Subsequent to arranging such a discussion, information was received from [redacted] Deputy Assistant Attorney General and Chief Prosecutor in the Eastcon case that a motion had been filed in USDC, Harrisburg, by Eastcon attorneys to suppress evidence in search conducted during the February 7, 1970, break-in [redacted]. One count in the Eastcon indictment is dependent upon evidence recovered in the [redacted] case. The search in question was a derivative of the previous warrant calling for the search of a residence. If the first warrant is found defective, the court could hold the second warrant defective within the "fruit of the poison tree" doctrine. U

Since the evidence which would be the prime support to successful prosecution in the [redacted] case was under review by the court, as indicated in our memorandum of November 3, 1971, a prosecutive decision as it pertained to Medburg subjects would have been premature at that time, and it was approved we await the decision of the court relative to the admissibility of the [redacted] evidence. U

On January 4, 1972, in USDC, Harrisburg, Deputy Assistant Attorney General [redacted], handling the Eastcon prosecution, stipulated the [redacted] evidence was not crucial to the Eastcon prosecution and, therefore, no attempt would be made to use this evidence in the Eastcon trial. The defense attorneys agreed to the

stipulation and, upon their request, the District Court ordered the evidence returned to the defense attorneys for eventual return to its owners. In accordance with this order, the evidence was so turned over to the defense. ACTION: For information. Under the circumstances, and in accordance with the court's decision and the opinion rendered by [redacted] it would appear there would be no further legal basis for bringing pressure to bear upon Medburg subjects by attempting to initiate prosecution in the Assero case. U

SUBJECT: MEDBURG

DATE: JAN 28 1972

Re Springfield letter to the Bureau, dated 1/5/72, captioned "Camden Action; JAMMA ANN ABDON, aka; CGR - BURGLARY, Etc.," OO: Philadelphia. U

That letter enclosed an FD-302 setting forth results of interview with [redacted] on 12/7/71. U

Offices are requested to caption future correspondence re this phase of the investigation as simply "MEDBURG." Offices also note that Newark is office of origin in the matter captioned "Camden Action, Etc." U

Philadelphia feels that Springfield obtained useful information during the initial interview with [redacted] and agrees that he knows more than he told and is more deeply involved than he admitted. Our objective with respect to MEDBURG is to find out from him the identities of persons known to him whom he suspects have some connection with MEDBURG. His admitted close association with [redacted] and the three priests, FORDI, MC GOWAN, and [redacted] makes it appear highly unlikely that he could be totally ignorant of their activities other than in the Berrigan Defense Committees. U

[redacted] said that his Berrigan Defense Fund activity began in earnest in early February, 1971 when he was visited by his brother-in-law, the brother-in-law's girl friend who subsequently became his wife, and [redacted]

[redacted]  
[redacted] of course, is [redacted], a usual resident of Rochester, N. Y., who has been extremely active as a member of the BERRIGAN entourage. She is [redacted] years old and is very close to [redacted] another of the individuals to whom [redacted] referred. She has been interviewed by Bureau Agents. The tenor of the interview has been that she is willing to sit down and have a philosophical discussion with the agents about the Vietnam war and similar matters but will not really tell them anything. Her parents have been cooperative and have been interviewed a number of times. The difficulty there is that the parents do not really know much about what their daughter has been up to lately. They are aware of some of her attitudes of which they disapprove. U

b6  
b7C

[redacted] is close enough to the [redacted] for example, that she stayed at their home with the [redacted] youngest child during late August and early September, 1971 while the [redacted] were vacationing. During this time, she had the use of the [redacted] station wagon. U

[redacted] has also been positively identified as the girl who identified herself as [redacted] in early March, 1971, when she made what has now become obvious as a pretext appearance at the Resident Agency in Trenton, N. J. The State Selective Service headquarters is housed in the same building with the Resident Agency. A draft board located in a building across the street from the Resident Agency was vandalized on 5/21/71. From evidence seized in the Camden Action, we know now that the Resident Agency itself was under surveillance and was being cased. U

b6  
b7C

[redacted] is a [redacted] He is [redacted] years old, married, and lives in a suburb of Rochester, N. Y. He has been extremely active in the BERRIGAN movement and is thought to be one of the principal planners in "actions" taken by the BERRIGAN movement. We have his fingerprints to prove his complicity in a draft board break-in in Philadelphia in February, 1970. U

[ ] has been a close supporter of JOHN PETER GRADY, the mastermind behind the Camden break-in and the man who has claimed to be responsible for 14 of 18 "actions." GRADY told an informant in early July, 1971 about one of his good friends in Rochester, [ ] who provided GRADY money and supported GRADY and his family from time to time. U

PETER FORDI, EDWARD MC GOWAN, and [ ]

[ ] at the same location in New York. FORDI and MC GOWAN were arrested in the Camden Action. FORDI was caught inside the draft board in the process of removing and destroying draft records after the subjects in that case had forcibly and surreptitiously entered the place. MC GOWAN was involved in some of the surveillances and observations made by the subjects in preparation for the raid. He was not apprehended on the spot but later voluntarily surrendered. U

b6  
b7C

All three have been very active in support of the BERRIGANS and their philosophy, and all three have been named by an informant as Media burglars. (The fourth burglar named by the same informant is GRADY.) U M.O.

The brothers, DANIEL and PHILIP BERRIGAN, are well-known and their activities have been well chronicled. Some specifics, however, may be useful in further discussions with [ ] His apparent attitude is continued support and sympathy for the BERRIGAN philosophy. At the same time, however, he purports to deplore violence regardless of its philosophical justification. He defines break-ins, raids, and burglaries of Federal institutions as violence. U

b6  
b7C

[ ] may not be aware of public source information about the BERRIGANS which brings their activities within his definition of violence. U

PHILIP BERRIGAN was one of a group of individuals who walked into Selective Service offices in Baltimore, Md. on 10/27/67 and proceeded to pour what they claimed was blood into the files and into the file cabinets in the office. A photograph of PHILIP BERRIGAN doing this appeared in the newspapers. U

PHILIP BERRIGAN and the others were tried by jury and were adjudged guilty by that jury on 4/16/68 on a charge of Destruction of Government Property and interference with the operation of the Selective Service Act. On 5/24/68, PHILIP BERRIGAN and one of the others were sentenced to a term of six years. U

The convictions were appealed to the Fourth Circuit Court of Appeals and the convictions were upheld on 10/15/69. Petitions for a writ of certiorari were denied by the United States Supreme Court on 2/24/70. Thereafter, the defendants were ordered to report to the United States Marshal on 4/9/70 to begin serving their sentences. (PHILIP BERRIGAN and the others were, of course, on bond during this period following their promise to appear when required.) U

BERRIGAN elected not to honor his promise and became a fugitive. He was apprehended on 4/21/70. U

Recalling that PHILIP BERRIGAN was convicted for the Baltimore Action on 4/16/68, it is of additional interest in judging his worthiness as a philosophical leader that he, along with his brother DANIEL BERRIGAN, M.D. and others, walked into a draft board office in Catonsville, Md. on 5/17/68 and proceeded to forcefully remove files over the protest of Selective Service personnel, removing them to a nearby parking lot where they set them afire. U

The BERRIGANs and their associates in this enterprise were indicted and were found guilty after a jury trial on 10/5/68. They were sentenced on 11/8/68

PH 52-7165

with the sentence of PHILIP BERRIGAN to run concurrently with the sentence imposed on him for the Baltimore Action. U

The sentenced handed down on 11/8/68 was appealed to the Same Circuit Court as before. Conviction was upheld. The Supreme Court denial of certiorari on 2/24/70 was applied to this case. U

DANIEL BERRIGAN, ordered, to report along with his brother on 4/9/70 to begin serving his sentence, elected to take the same course as his brother, to dishonor his promise to appear. He also became a fugitive. U

Springfield may find the foregoing useful in further interviews with [ ] in an attempt to disabuse him of the notion that the BERRIGANS were unjustly charged and imprisoned. These facts may also cause [ ] to re-evaluate his loyalties to the BERRIGANS in view of his expressed abhorrence of violence. He may also have cause to wonder whether or not they have the moral courage to face the consequences of their open defiance of the law. U

Philadelphia likes Springfield's approach. We would suggest additional contacts away from [ ] attorney with a view to changing his philosophical outlook. He has really told us more than he realizes and he surely knows more than he has said. We have no thought that he had anything to do with MEDBURG. He certainly must have some pretty fair ideas about it, however, from his admitted associates. We have thought for some time that [ ] is among those who could tell the whole story if he would. He may have told part of it to [ ]

There follows a brief summary analysis on MEDBURG, a summary of investigation, a listing of subjects and suspects, a statement of current direction of the case and recent developments:

DECLASSIFIED ON  
BY 383 VRT/22

## SUMMARY ANALYSIS

The burglary of the Resident Agency at Media, Pa., was discovered at 7:55 a.m., on 3/9/71, by the first arriving Special Agent. He first became aware something was amiss when he had difficulty getting his key into the lock when attempting to open the main door to the Resident Agency. After entering the office space, he noted locks on cabinets were in an open position, drawers to desks were open, and the lock to Room 204 was torn off. This door was not normally used and, in addition to being securely locked, had also been blocked by supply cabinets placed against it. The burglars entered the office space by forcing the door to Room 204 and pushing the cabinets aside. U

The building custodian had cleaned the office space shortly after 7:00 p.m., on 3/8/71, and had completed all cleaning of the building at 9:00 p.m. U

[redacted], Philadelphia Stringer for Reuters British News Service, stated he had received a telephone call at 7:00 a.m. on 3/9/71 from individuals claiming responsibility for the burglary. The caller dictated to [redacted] the text of the news release of the Citizens Commission to Investigate the FBI. U EX-112

A member of the staff of the "Philadelphia Inquirer," a major metropolitan newspaper, stated he had received a telephone call at 4:30 p.m., on 3/9/71, from an unknown male, who inquired about the burglary. This caller claimed to the newspaper staff member that he had seen police and FBI agents outside the Resident Agency at 4 a.m., on 3/9/71. U

From the above, it would appear that the burglary occurred between 9 p.m., on 3/8/71, and 4 a.m., on 3/9/71. U

The immediate investigation and search for physical evidence turned up a number of latent fingerprints. All of these have been eliminated with the exception of two palm prints. From the absence of latents other than those of persons having legitimate access to space, it is supposed that the burglars wore gloves. U

Markings on the hasp and lock casing to room 204 resembling those of a screwdriver or a pry bar were found to be insufficient for identification. An attempt had apparently been made to force the lock on room 203, the main door, by using a wrench, vise-grip pliers, or similar tool. Comparison of these marks with a suspect tool is possible. U

Wire to the radio was cut by pliers or similar tool but identification is not possible. U

Although door locks bore some evidence of attempted picking, no identification with a suspect tool is possible. Desks were apparently entered by prying; however, none of the marks are identifiable with a suspect tool. No tool marks were found on the cabinets. U

A review of records at Philadelphia Headquarters and analysis of items believed to have been in the Resident Agency, determined that some 1,000 serials or documents were stolen. No office equipment was stolen. The only item taken not of a documentary nature was an autographed picture of the Director. Only the picture itself was taken. The frame was left behind. There was no vandalism. An agents brief case was also taken. U

SUMMARY OF INVESTIGATION

Immediately following discovery of the burglary, an exhaustive search was conducted in the office space itself, in the restrooms, public corridors, stairways, and around the outside of the building for physical evidence. This included a complete search of trash cans and recesses and culverts at the base of the surrounding buildings and at the curb right in front of the building. Nothing was found. One of the bus services serving Media and a nearby town was found to run its last bus from Media, Pa., at 6 p.m., and to have no further service until 6 a.m. The Media trolley leaves Media just before 1 a.m., on its last run and does not begin again until 6 a.m. U

The driver of the only taxicab on duty, 3/8-9/71, stated he handled only his regular customers and had gone off duty at 2 a.m. U

Trolleys of another service depart Media for Philadelphia shortly before midnight and at 12:33 a.m. There are similar trolleys at about 5:45 a.m., and shortly after 6 a.m. Operators of all these trolleys were interviewed and were able to provide no information of value. All of the security guards who served in the Media County Courthouse, which is at an angular distance across the street from the Resident Agency, were interviewed. None was able to provide any information of value. U

Media has a volunteer fire department. The one individual on duty went home at 10 p.m. There were no fire calls during the night. U

Members of the cleaning force of buildings in the surrounding areas, who normally work at night, were interviewed. They could provide no information of value. U

Media has a volunteer ambulance service. They had no calls during the night of 3/8-9/71. U

The Post Office Department makes no pickups from boxes on the street after 5:30 p.m. There are about 35 employees in the building itself on the 2 - 11 p.m. shift and a maximum of three on the midnight to 8 a.m. shift. They all work inside the building. None was able to provide any information of value. U

~~CONFIDENTIAL~~

Personnel of all motels in Media and surrounding areas were interviewed and records examined, where appropriate, without result. U

Registered owners of cars parked and moving during the evening and after midnight hours of the Monday night following the burglary were identified and interviewed. None were able to provide any information of value. Security officers and established sources at all of the colleges and universities in the area surrounding Media were apprised of the burglary and their assistance sought. None were able to provide any information of value. U

Inquiry was made of the building management and the rental agency as well as custodial and maintenance personnel, to determine if they had ever been approached to provide a layout of the building housing the Resident Agency or the Resident Agency itself. Their replies were all in the negative. U

Persons who had done maintenance work in the building on a regular or occasional basis were questioned. They could provide no information of value. U

Persons who had at one time lived at one of the apartments, as well as persons currently residing there, of course were interviewed. They could provide no information of value. U

Locksmiths in the Philadelphia Division were interviewed for the identities of any individuals possibly known to them who might be skilled in lock picking who might be suspects in this case. This was without positive result. The most prominent locksmithing school was identified and names of suspects were searched through the roster of students or graduates. This was without positive result. All members of the Media Police Department were interviewed. Although there were extensive, time consuming investigations conducted based upon information furnished by them, none of the information they provided relating to police incidents had any connection with the case, which included such things as an incident involving a rented car at a motel and arrests made during the pertinent period. The police officers themselves observed nothing having a bearing on the burglary. U

~~CONFIDENTIAL~~

PH 52-7165

~~CONFIDENTIAL~~

Police officers were interviewed and records were searched at surrounding police departments. No information of value was developed. U

Persons arrested in Media during the night charged with other burglaries were interviewed to no avail. U

~~CONFIDENTIAL~~

The neighborhood investigation itself was conducted house to house, business to business, and block to block. Residents in homes and apartments were interviewed as well as proprietors and personnel in business establishments. Owners and employees of bars, restaurants, service stations, and service establishments were interviewed. Where residents were not at home, they were interviewed on a subsequent date. Employees not at work on a particular date were interviewed on a subsequent date. U

Photographs were shown in each instance and as additional logical suspects were developed, these photographs were displayed. In any instance in which there was a hint that subsequent displays of additional photographs would be useful, this was done. U

Interviews were conducted and photographs displayed at all service stations in the Media area as well as the State Liquor stores in the vicinity of Media, based partially on JOHN PETER GRADY's known appetite for liquor. Car rental agencies were contacted and photographs displayed. U

The above investigation conducted in the days immediately following the burglary was, without real results, except for the following three items: U

A male witness in Media described a Ford Econoline van with a Delaware license which he had observed parked near the Resident Agency prior to the burglary. His description matched a vehicle driven by [redacted] affiliated with persons active in the "New Left" in Philadelphia. The witness was given the opportunity to walk along a street where [redacted] vehicle was parked and he identified [redacted] van as the van he had seen in Media. He recalled it had been parked near the Resident Agency on March 6, 1971, basing his recollection on the fact that March 6 was a Saturday, and that had been the only Saturday the witness worked in March. Attempts to interview [redacted] have been non-productive. U

One [ ] resides in an apartment with an unobstructed view of the alleyway in the rear of the building which housed the Resident Agency. He said that he worked until about 11:30 p.m., and then went directly home, arriving about midnight. He said he watched television until 4 or 5 a.m. At about 2 or 3 a.m., he heard a car drive into the alleyway and from the noise made, he judged there were several occupants. After about 15 minutes he looked out. He was unable to see the car itself since it was parked behind a truck which normally parked in the alley. The only thing really visible to him was the head of one individual which he was able to see above the truck. He was only able to say that the individual was a white male, twenties, long hair, wearing old fashioned glasses. When [ ] opened his apartment window, he believes he startled the individuals because they departed. He was unable to describe the vehicle conclusively and subsequent interviews with him have produced no more specific information. [ ] said that he had been a special student at a remedial institute for several years. U

[ ] who spent the night of March 8 - 9, 1971, in an apartment across the street at an angle from the Resident Agency. He said that sometime between 10 and 11 p.m., on March 8, he heard the sound of a vehicle parking in front of the apartment house. The headlights were turned off but the engine remained on. After about five minutes, the vehicle pulled away. It returned 30 to 50 minutes later, but not later than 11:30 p.m., and parked in the same location, again with the headlights off and the engine running. Shortly thereafter, [ ] heard someone running in the direction of the apartment house, and he heard the sound of a car door opening and closing. The vehicle then departed. U

guess down to three models after being shown photographs of American made cars of various vintages. Our investigative line has been to determine if any of the suspects own or have owned a car meeting the general description of these three vehicles. So far, the results have been non-productive. U

Believing that the burglars would have required a number of bags to haul away the records, and based on previous experience in break-in cases, a canvass was made in an attempt to discover the source of the bags that may have been used. One dealer, among all those contacted, recalled a sale of what he considered to be an unusually large number of bags. He was able to describe the purchaser in general terms only and had no record of the transaction. He was shown countless photographs of suspects without results. U

Knowing that "walkie-talkie" radios have been used in prior break-ins, a survey of dealers handling such equipment was made. This was without positive results. One suspect, [redacted] was known to have his transceiver repaired at a particular location. Since his last transaction there, however, ownership of the store has changed and despite review of records by store personnel and special agents, no record was located that [redacted] had ever done business there. U

b6  
b7c

Delivery route drivers serving the Media area were interviewed. As in all interviews, questions were not restricted to the actual time of the burglary, but related to any activity of significance prior to the burglary. Interviews with the delivery route drivers were also without result. U

Following the above, additional teams not having previously participated in the investigation around the Resident Agency were dispatched for a second neighborhood investigation. This encompassed 35 square blocks and resulted in interviews with about 1,800 persons. No information of value was developed. U

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

Thereafter, a third neighborhood investigation was conducted concentrating on the area immediately surrounding the building which had housed the Resident Agency, seeking possible sites from which the burglars might have surveilled the Resident Agency or might have maintained lookouts during the burglary. The entrances of a number of rooms of a number of buildings were processed for fingerprints and various items, such as discarded beer cans, cigarette butts, and the like were picked up. Processing of the latents and the physical items was without useful results. U

#### THE "WALK-INS"

In mid-January 1971, a white female appeared at the Media Resident Agency. She said she was an instructor at Haverford College conducting a seminar involving professional career people. She wanted a Bureau speaker. She was advised that arrangements for speakers had to be made through headquarters in Philadelphia. (There is no record in the Philadelphia Office of any request from anyone at Haverford College around this time for a speaker to participate in a seminar.) U

The special agent who had talked briefly to this woman positively identified [redacted] from a number of photographs as the woman who had talked to him about getting a speaker. U

[redacted] was at that time an [redacted] at [redacted] in the Political Science Department. U

Agents attempted to interview [redacted] on March 17, 1971. She was hostile and apprehensive and insisted on having fellow employees with her during the interview. She also attempted to tape the interview. When asked to desist, she replied that the FBI always recorded their interviews. When reminded that if she had ever visited an FBI Office she would know that this was not true, and when asked if she had in fact visited an FBI Office, her reply was interrupted by one of her associates who exclaimed loudly, "Don't answer that question." This same associate asked if [redacted] b6 b7C

There was a second walk-in on 2/24/71. This woman appears to be the same individual who earlier in the same day had come to the Resident Agency while it was unoccupied. An employee of the local draft board, whose offices are adjacent to the former Resident Agency space, tried to be of help to this woman. She told the unknown caller that an agent would probably return about 1 p.m., and that she could perhaps come back at that time. U

When the caller did appear at about 1 p.m., she claimed to be making a survey concerning equal job opportunities for women in connection with a conference to be held at Temple University the following weekend. In response to her questions, she was told that the FBI does not hire women Special Agents and that there were no clerical personnel assigned to the Media Resident Agency. She was given literature on the Bureau's employment policy and opportunities. U

A survey conducted in the area of the Resident Agency following the burglary, disclosed no other instance of any establishment, private or governmental, having been approached concerning this alleged survey on equal employment opportunities for women. U

The draft board employee who most probably encountered the same woman and the Special Agents who had observed her viewed countless photographs of female suspects. The woman who came into the Resident Agency was dressed in a style typical of New Left adherents and would be relatively indistinguishable from others of the same age group and culture. Special Agents have been unable to positively identify this woman from photographs or personal observations of suspects, however, the draft board employee is certain that the woman she saw in the hallway was KATHLEEN RIDOLFI. ### IDENTITY OF SUBJECTS

During the course of this investigation, more than 300 suspects were developed and individual case files opened for investigation. Most were eliminated by establishing their whereabouts during the pertinent period, or by interview. U

Following are those now considered to be principal subjects or principal suspects, although there are others not yet positively eliminated. U

#### SUBJECTS

##### JOHN PETER GRADY

GRADY is a 46 year old, white, male, native-born American of Irish extraction; who is married with five children under 18 years of age, whose residence of record is Bronx, N.Y. After receiving an honorable discharge from the U.S. Navy in World War II, he returned to college and received a B.A. degree in Sociology from Manhattan College and an M.A. degree from Fordham. He was the recipient of a Fulbright Scholarship, studying in England for a year in the early 1950's. U

Since college he has held numerous jobs, the most recent of which was the setting up of Resistance Book Distributors, whose proceeds were to go to the Berrigan Defense Fund. This venture failed. He has been described as an "action man for the BERRIGANS," and brags that he was responsible for 14 of 18 successful "actions" that took place in the last three years. He was the prime mover and organizer in the Camden, N.J., draft board break-in of August 21-22, 1971, in which he and the other participants were arrested by FBI Agents. U

b6  
b7C

##### PETER DONALD FORDI

FORDI is a [redacted] native-born, white, male Jesuit Priest. His residence is [redacted], and he is reportedly working on his Master of Sacred Theology degree at Woodstock College, New York City. He is an ordained Priest, but has no known specific assignment. He surfaced as one of the group calling themselves the East Coast Conspiracy to Save Lives, which group claimed responsibility for

the destruction of draft board records at the locations in Philadelphia, Pa., on February 6-7, 1970; and the ransacking of General Electric Offices in Washington, D.C., on February 7, 1970. He was present on April 21, 1970, at the church in New York City where PHILIP BERRIGAN, a Federal fugitive, was arrested. In a television appearance, he accused the Director and the FBI as "Political Police" who constitute the real threat to the people of the United States. FORDI was arrested inside the Camden, N.J., draft board by FBI Agents on August 22, 1971. U

EDWARD J. MC GOWAN

MC GOWAN is a [redacted] native-born white male, Jesuit Priest. He resides at [redacted] and has no known church assignment. He received his Bachelor Divinity from Woodstock College and was ordained in 1968. He was one of a group calling itself the "New York 8" which claimed responsibility for draft board break-ins in the Bronx, N.Y., on August 1-2, 1969, and Jamaica, N.Y., on August 14-15, 1969. U

b6  
b7c

On September 8, 1971, MC GOWAN was arrested by the FBI for conspiracy regarding the Camden draft board break-in on August 22, 1971. He has been active in the Harrisburg Defense Committee and is an associated of PHIL BERRIGAN. U

[redacted] is a [redacted]  
[redacted] He has no known assignment and resides at [redacted] with Fathers EDWARD MURPHY, PETER FORDI, and EDWARD MC GOWAN. Having pursued a Catholic education [redacted]

He participated in a burglary and destruction of Dow Chemical Company Offices in Washington, D.C., on March 22, 1969; was sentenced on May 6, 1970, to six months in jail and three years probation; freed on \$1000 appeal bond. He is a member of the Harrisburg Defense Committee. U

*PA  
D.C.  
118*

COUMING was arrested by the Philadelphia Police Department on February 7, 1970, in a car parked outside a building housing draft boards, which had been broken into that night. He was known to have been involved in the planning of the "action." On November 23, 1970, he was indicted on three counts of a Selective Service Act violation, failed to show up for his trial, and was arrested by U.S. Marshal on February 10, 1971, at a Paulist Center in Boston where he had taken sanctuary. He was convicted on two counts, given three years probation, and alternate service as prescribed by Selective Service System. On April 9, 1971, he was arrested at a demonstration at the Department of Justice, Washington, D.C., at which copies of material stolen from the Media Resident Agency were distributed. [redacted]

b6  
b7C

On August 22, 1971, he was arrested by FBI Agents inside the draft board in Camden, N.J., for destruction of Government property, theft of Government property, and conspiracy. U

KATHLEEN MARY RIDOLFI

*KATHLEEN RIDOLFI*

*NO*  
RIDOLFI, also known as [redacted] is a [redacted] white, female, native of Philadelphia, Pa. She is a high school graduate who attended college but did not graduate. She was previously engaged in working with JOHN PETER GRADY in setting up the Alternate Book Store in Philadelphia, a radical book store whose proceeds were to go to the Berrigan Defense Fund. U

b6  
b7C

Information available indicates that she was involved in the planning of the Philadelphia draft board break-ins of February 7, 1970, and the Trenton, N.J., draft board break-in of May 21, 1971. She was a constant companion of JOHN PETER

GRADY in the planning of the Camden, N.J., draft board break-in. She was arrested by FBI Agents on August 22, 1971, inside the Camden draft board for breaking and entering, destruction of Government property, and theft of Government property. U

A girl, who identified herself as KATHLEEN RIDOLFI, was the driver of the car in which JOHN PETER GRADY was riding when it was stopped on March 11, 1971, for a traffic violation in West Windsor Township, N.J. U

Her close relationship with GRADY; her history of working with GRADY in three draft board actions; and her being with GRADY on March 11, 1971, would indicate that, if GRADY was involved in MEDBURG, she was too. U

ROBERT WILLIAM WILLIAMSON

*Bob Williamson*

*NJ* WILLIAMSON, also known as [redacted] is a [redacted] single, white, male, [redacted] He is employed by the Pennsylvania Department of Public Assistance and resides in [redacted] He completed three years at [redacted] in Philadelphia, Pa. U

He was one of a group calling themselves, "We The People" that claimed responsibility for the draft board actions in Philadelphia, Pa., and Lansdowne, Pa., on May 19-20, 1971. On August 22, 1971, he was arrested inside the Camden, N.J. Draft Board by FBI Agents for burglary, destruction of Government property, and theft of Government property. U

Following MENBURG, [redacted] *PA* had a series of conversations with JOHN PETER GRADY, [redacted] and others involved in the BERRIGAN entourage. [redacted] interpretation of these conversations led him to the conclusion that GRADY, FORDI, MC GOWAN [redacted] were the principals in MEDBURG. For example: U

IDENTITY OF PRINCIPAL SUSPECTS

ANITA A. RICCI [redacted]

*nd*  
RICCI is a 22 year old, single, white, female, native of Philadelphia, Pa. She is unemployed and resides [redacted] Pa. U

Information is available that indicates she may have had some participation in the draft board actions in Philadelphia, Pa., on February 6-7, 1970. She participated in the planning and surveillance of the Camden Draft Board action of August 21-22, 1971. [redacted] but was later indicted by a Federal Grand Jury as a conspirator. U

She and KATHLEEN RIDOLFI lived with JOHN PETER GRADY during July, 1971, during the casing period of the Camden, N.J., Draft Board. There are indications that she was the second girl in the car with JOHN PETER GRADY when they were stopped on March 11, 1971, by the West Windsor Township, N.J., Police Department for a traffic violation. This, in view of her [redacted] with GRADY, would indicate that if GRADY was involved in MEDBURG, she was too. U

b7C

[redacted]  
[redacted] He has made public appearances in behalf of the BERRIGANS and EASTCON. He claimed that he had been personally involved in every draft board action that took place in the state of Delaware in 1970. He was one of several individuals who claimed responsibility for the destruction of draft board records in New Haven, Conn., on July 9, 1970. U

He joined the conspiracy to break into the Camden, N. J., Draft Board and participated in the planning and surveillance for that action. On August 22, 1971 he was arrested by FBI Agents in the vicinity of the Camden Post Office during the burglary on that date. U

On March 15, 1971, at a public meeting in a general panel discussion, SWINGLISH made reference to "stopping the Government before it stops us." In this vein he made reference to the "Media action" and remarked to the effect that "We had been interested for some time as to what they had in their files up there." Subsequently, in an apparent attempt to retract what he had said, he stated he did not really know what had happened at Media or who was responsible. In a subsequent interview by FBI Agents, he disclaimed any knowledge of MEDBURG. At a press conference on October 27, 1971, he spoke about his indictment in Camden, N. J., and complained about FBI surveillances. He stated "we" have and will "physically" enter Government offices. "We" will stop the surveillances this way. U

Evidence Developed Through Examination of Documents Surfaced Subsequent to Burglary

1. Copying Machines

A. Xerox 660

On March 19, 1971, two packets of reproductions of FBI documents were mailed from Princeton, N. J., to U. S. Senator GEORGE MC GOVERN and to the Washington Bureau of the "Los Angeles Times." On March 21, 1971, U. S. Representative PARREN MITCHELL received a like packet as did the Washington Bureau of the "New York Times." In all 50 copies of FBI documents were included in these packets. Examination by Xerox chemists determined 52 of these documents bore a unique dot indicating production on one machine, a Xerox Model 660 machine. Since the third week of March, no additional reproductions have occurred bearing this characteristic mark.()

FBI Laboratory has advised the dot on these documents is identifiable. However, in excess of 4,000 specimens from Xerox 660 machines have been obtained, and no identification affected to date. The dot appears one-quarter to one-half inch from the bottom of the documents and approximately four and one-half inches from the left-hand border.()

Xerox officials were queried concerning possibility of identifying the Xerox 660 through a sudden jump in copy count on one of their machines. They stated that this procedure would be impractical for a variety of reasons.()

B. Xerox 2400

On March 31, 1971, a number of individuals identified in stolen FBI documents as having furnished information to the FBI received letters from the "Citizens' Commission to Investigate the FBI (CCIF)." Analysis of these letters by Xerox chemists determined they were reproductions of a Xerox Model 2400 machine. Two of the documents bore a unique horizontal line in the upper left-hand corner. Xerox advised this line was the result of a scratch on the drum of the copying machine.()

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

Specimens have been obtained from Xerox 2400 machines. However, none of the specimens obtained to date have displayed the unique horizontal line. U

C. 3M

Seven reproduced FBI documents mailed to the Chicago Office of the "Los Angeles Times" from Harrisburg, Pa., April 3, 1971, were determined to have been reproduced on a 3M copying machine. Two other documents left at the residence of U. S. Representative PARREN MITCHELL on March 21, 1971, were likewise reproduced on such a machine. Examination by representatives of the 3M Company determined the copies were produced on a manually operated model, but the particular model could not be ascertained. Also the documents did not bear any distinct characteristics which might be matched to subsequent surfaced reproduced documents. U

D. Olivetti - Underwood Copia II, Model 514

Five items have been recovered which were determined to be reproductions from an Olivetti - Underwood (O-U) Copier. Each was a copy of the same document, a March 18, 1971, letter from the CCIF beginning, "Dear Friend, Enclosed you will find..." Examination by O-U officials determined the documents were reproductions of an O-U Copia II, Model 514, machine. However, no characteristics were noted on the copies which would enable identification of the particular machine on which the copies were made. O-U officials have advised this particular model was sold commercially, as well as placed in numerous locations, particularly colleges, as a coin-operated reproduction unit. U

E. Smith Corona Marchant (SCM)

On April 19, 1971, three individuals in the Philadelphia, Pa., area received letters postmarked Philadelphia, enclosing copies of FBI documents pertaining to them. On April 22, 1971, packets of documents were mailed from Wilmington, Del., to the Washington Offices of the "Washington Post" and the "Los Angeles Times." A total of more than 50 reproduced FBI documents were included in

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

these mailings. They were determined to be copies from an SCM copying machine. SCM officials examining samples of the reproductions determined they were made on a Model 33 or Model 44 machine, but could not be more specific. It was further determined the copies did not bear unique characteristics which would enable identification with specimens from sample machines. U

## 2. Typewriters

### A. IBM Selectric (Elite)

Three envelopes with original impressions of IBM Selectric Elite style of type have been recovered following their mailing to individuals by CCIF. Two of them were postmarked April 3, 1971, at Harrisburg, Pa., the other March 25, 1971, at Philadelphia. In addition, two other documents have surfaced which bear the same style of type, the original CCIF press release dated March 8, 1971, and a letter (received by three individuals) dated April 3, 1971. Identification of this machine through comparison with the original impressions on the three envelopes is possible. U

### B. IBM Selectric (Script)

The IBM Script style of type has appeared on two items. One was an envelope postmarked April 22, 1971, at Wilmington, Del., addressed to the Washington Office of the "Los Angeles Times;" the other an enclosed cover letter from CCIF dated April 21, 1971. No other surfaced documents have displayed this type style. U

### C. IBM Courier

On April 28, 1971, an unidentified individual distributed ten manila envelopes to various press representatives at the Press Building in Washington, D. C. Enclosed in the envelope was a two page press release allegedly authored by the CCIF. The envelopes bore a sticker of the Peoples Coalition for Peace and Justice, a Washington, D. C., organization. The press release was determined to have been prepared on a typewriter with IBM Courier type style. No other documents have surfaced in this case with this type style. U

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

D. Remington Elite

Only one document, copies of which were received by four individuals, has surfaced bearing the Remington Elite type style. This document is a March 18, 1971, letter of the CCIF. The FBI Laboratory has advised, although the specimens are reproductions and not original typewriting impressions, the reproductions are of such quality as to allow identification of the machine on which the letter was prepared. U

E. Royal Merit Elite

Nine envelopes addressed to individuals accused of furnishing information to the FBI have been recovered, each of which was prepared on a typewriter with Royal Merit Elite type style. These envelopes, postmarked March 31, 1971, at Philadelphia, enclosed a reproduction of a CCIF letter likewise prepared on a machine with this same type face. In addition, another CCIF letter dated April 3, 1971, and mailed from Harrisburg, Pa., was noted as having Royal Merit Elite characteristics. Identification of the machine on which the envelopes were prepared is possible since they display clear original type impressions. U

F. Ransmayer - Rodrian (RA-RO) Elite

On March 10, 1971, WILLIAM WINGELL, Philadelphia representative of Reuter's News Service, received an envelope in the mail postmarked March 9 at Philadelphia. Enclosed in the envelope was the March 8, 1971, press release of the CCIF claiming responsibility for the Media burglary. The FBI Laboratory determined the envelope was prepared on a typewriter with RA-RO Elite type style. This type style, manufactured in West Germany, did not reappear on surfaced documents until April 19, 1971. On that date, three individuals were mailed documents from Philadelphia pertaining to the investigation by the FBI into their activities. The envelopes, as well as the enclosed letter from the CCIF dated April 19, were prepared on a typewriter with the RA-RO Elite type face characteristics. Identification of this machine is likewise possible through comparison with the original type impressions on the four envelopes which have surfaced. U

### 3. Staplers

FBI Laboratory examination has been conducted on the staples affixed to surface FBI documents recovered between mid-March and mid-April. By comparison of tool marks imparted on the staples, the Laboratory was able to group staples from the documents as having been stapled with the same stapler. In the group of documents examined, it was determined through the tool marks that at least 20 different staplers had been used. Also, four different types of staples have been utilized, falt wire, round wire with flat cut-off ends, round wire with chisel points, and heavy gauge flat wire. U

Identification of the staplers used in preparing some of the surfaced packets is possible through comparison with the tool marks imparted by the stapler on the staple. U

### 4. Handprinting

On March 19, 1971, two envelopes bearing handprinting addresses were mailed from Princenton, N.J., which contained letters from the CCIF and copies of several FBI documents. These envelopes were addressed as follows: U

1. Senator GEORGE MC GOVERN  
U.S. Senator, S. Dakota  
Senate Office Building  
Washington, D.C.
2. Mr. JACK NELSON  
Los Angeles Times  
Washington Office  
Washington, D.C.

The Laboratory concluded the same individuals printed the addresses on both envelopes. U

All other envelopes associated with mailings by the CCIF have had typewritten addresses. U

### 5. Latent Fingerprints

FBI Identification Division examination of recovered materials, which have been disseminated by CCIF, has identified 31 documents on which unidentified latent fingerprints have been developed. These documents were part of packets received by ten

INVESTIGATION TO LOCATE  
ORIGINAL DOCUMENTS

JOHN PETER GRADY organized the Resistance Book Distributors and set up book stores using the name Alternate Book Store near college campuses. His supposed purpose was to encourage professors to have their students buy books from these stores, the profits of which were supposed to benefit the Berrigan defense. U

One of these stores was established near Temple University in Philadelphia. Having developed GRADY as an early Medburg suspect and knowing of his connection with the Alternate Book Store, a search was conducted there under appropriate pretext immediately following Medburg, considering the book store as a likely hiding place for the documents. This was without positive result. U

Persons affiliated with Philadelphia Resistance were early suspects in Medburg. The organization maintains an office in Philadelphia. Informants were targeted against individual Resistance members and against the organization itself. New sources were developed. Although it was clear that Philadelphia Resistance had some knowledge of the Citizen's Commission to Investigate the FBI, and although some material was mailed from there, no information was developed that Philadelphia Resistance actually had Medburg documents. The question of participation in distribution of copies has not yet been resolved. U

Sources were also developed having access to communes in Philadelphia inhabited by Resistance people and New Left adherents. Observation by informants and developed sources there failed to disclose any evidence that Media documents were maintained at these locations. U

There were some mailings of documents from Harrisburg, Pa. The postmarks coincided with a gathering of individuals from a variety of "New Left" groups in Harrisburg. Any one of the persons participating in the gathering could well have mailed the documents; however, investigation on this point has been without result. U

Each mailing and surfacing of copies of Media documents was investigated as far as possible seeking a link to the location of the original documents. These

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

investigations were without positive result. U

A most intensive investigation was conducted following identification of the principal copier as a Xerox 660. The particular machine used imparted a characteristic marking to the copy which would serve to identify the xerox machine being used. Over 4,000 specimens were obtained from xerox machines from east coast offices. The xerox machine used by the distributors of the documents has not yet been identified. U

Resist in Cambridge, Mass., is known to have been a distribution center for copies of Media documents. Investigation conducted by Boston does not indicate that originals are maintained by Resist in Cambridge or that they are reproducing copies. They have mailed out a considerable volume of copies but their source for these copies remains unknown despite Boston's employment of normally productive investigative techniques. U

Based on information furnished by a citizen previously unknown to Philadelphia, the search warrant was executed at the apartment of [redacted] in Philadelphia on May 16, 1971. Documents found in her possession were xerox copies of Media documents. She claimed (and it is apparently true) that she had the documents in her home for research in connection with a project on which she was working for a local Quaker group. U

[redacted] attributed information to [redacted] to the effect that [redacted] had been in Baltimore on April 2, 1971, to take back some of the records from Media. It was established that [redacted] had been in Baltimore on April 2, 1971, and had been in touch with [redacted] *md* *WIS* *MASS*

[redacted] received confirmation from [redacted] in Ithaca, N.Y., that [redacted] mailed some Media material from Cambridge, Mass. U

On June 25, 1971, [redacted] alluded to the "Pentagon Papers" and stated that since May 14, 1971, he had had the original Media documents in his hands. He said the originals were in Minneapolis. A check of telephone toll records showed a [redacted] during the pertinent period [redacted] a member of the Milwaukee 14 now residing in Minneapolis. Extensive investigation was conducted in Minneapolis concentrating on [redacted] *minn.*

[redacted] was not at work on June 4, 1971 (Friday). The date June 4, 1971, falls between May 14 and June 25, 1971. U

At the time [redacted] was talking in Baltimore about the documents being in Minneapolis, he had originally said Milwaukee in a possible slip of the tongue. He was corrected by his wife on that occasion. Since the Minneapolis investigation was unavailing, inquiries are now being made in an attempt to establish whether or not [redacted] may have been in Chicago on June 4, 1971, (a logical change-point for air travel from Baltimore to Milwaukee), and to establish whether or not members of the Milwaukee 14 may have knowledge of the location of the original Media documents. (This connection is based in part on the fact that [redacted] who allegedly took documents from Baltimore to Boston, is a member of the Milwaukee 14). U

THRUST OF INVESTIGATION SINCE  
8/22/71 (CAMDEN ACTION) AND  
SIGNIFICANT DEVELOPMENTS

Much was learned of the method of operation used by the Camden Action subjects during surveillance of their activities prior to 8/22/71. Reinvestigations were instituted in Media and environs based on this knowledge. U

Interviews had already been conducted and photographs had been shown at the State liquor stores in the Media area. We had learned that the Camden subjects supported themselves by theft and shoplifting while preparing the Camden burglary. This included GRADY's liquor supply. Wilmington, Del., is a short drive from Media and liquor stores in Wilmington were therefore canvassed. Proprietors and personnel were interviewed and photographs displayed. This was without positive result. U

Having learned that the Camden subjects habitually gathered in the early morning hours at the end of their own surveillances a search was made in the Media area for an establishment where they may have similarly gathered prior to the Media burglary. Interviews were conducted and photographs were displayed again without positive result. U

Reinterviews were conducted and additional photographs shown in bars in the Media area. These were without positive result. U

During the Camden Action investigation it was learned that three of the Camden subjects had been apprehended for shoplifting. Items which they took were of the type which a group living in a communal style would require for their daily use. Based on this experience department stores and similar establishments were canvassed and their security divisions particularly queried concerning shoplifting incidents prior to the Media burglary which might identify already suspect individuals or lead us to new suspects. Agents conducting these inquiries reviewed the security files noting particularly photographs where taken.

The third neighborhood investigation had specifically sought areas where the MEDBURG subjects had stationed themselves to surveil the Resident Agency prior to the break-in. This investigation was redone based on the experience gained in the Camden Action. This was without positive result. U

NEW INVESTIGATIVE STEPS WITH  
RESPECT TO XEROX

JOHN PETER GRADY was formerly associated with the Drew Foundation in New York City. Review of evidence seized in the Camden action disclosed an old delinquent account with reference to a xerox machine used by the Drew Foundation. GRADY was held responsible for the billing. This matter was pursued at New York and through the Xerox Corporation on the theory that this xerox machine could still be available to the MEDBURG subjects and might have been used to reproduce Media documents. Investigation failed to substantiate this theory. U

An intense review has been made and is being made of all files and sub-files in the MEDBURG case seeking new avenues of investigation, and insuring that prior investigations were followed to a logical conclusion. Review of the sub-file pertaining to xerox developed that a xerox machine, Model 660, had been stolen from a company in Camden, N.J., in October, 1970. As far as known, this machine has never been recovered. U

New Haven is presently conducting investigation at the Xerox Corporation with respect to this machine. Work is in progress to try to locate it, and the serial number and description have been entered in NCIC. U

Our best lead with respect to xerox has been the unique dot imparted by the Model 660 used to reproduce documents which surfaced soon after MEDBURG. This dot was caused by a spot of dirt on the drum or by a defect in the drum. Cleaning the drum, which would be accomplished at regular intervals during normal servicing by Xerox personnel, would remove the dirt. The defect would be removed by repair. U

As noted in another portion of this letter, some 4,000 samples from xerox machines were examined without identifying the machine bearing the unique dot. That machine has not been used for reproduction since mid March, 1971. (Or if it has, the dot was indeed imparted by dirt and the machine has been cleaned in the interim.) U

~~CONFIDENTIAL~~PROSECUTION IN CAMDEN ACTION

The 28 individuals arrested as a result of the break-in of the draft board offices in Camden, N. J., on August 22, 1971, were arraigned in Camden on September 30, 1971. At that time, a number of defendants entered a request to represent themselves and the judge took the request under advisement. U

Appointment of counsel hearing for the defendants was held in Camden on December 2, 1971. Their requests for self-representation were granted. At this hearing, the judge set a cut-off date for defense motions of March 15, 1972. He gave the government until April 1, 1972, to reply to these motions. U

The Assistant U. S. Attorney handling the prosecution stated on January 11, 1972, that there had been no changes in the cut-off dates ordered by the judge, and the Assistant U. S. Attorney expects that trial will not begin before May of 1972. U

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

PROSECUTIVE POTENTIAL IN MEDBURG AND  
CONTEMPLATED ACTION TO DEVELOP  
EVIDENCE AGAINST SUBJECTS

Despite the comprehensive and wide-ranging investigation summarized in this letter, the simple fact is that not one witness has been developed who actually saw anything the night of the burglary which would assist in identifying the culprits. U

It is apparent that the burglars wore gloves during the operation. The only avenue of investigation of possible value with respect to physical evidence at the crime scene is the lock, which was damaged by a gripping-type tool. Laboratory believes they could identify this tool from marks left on the lock. U

Publicity concerning Xerox Corporation's cooperation with the FBI in this investigation may well have put the Model 660, in which we are interested, permanently beyond our reach. U

We are fairly confident that we have identified seven people who participated in the burglary, (GRADY, MC GOWAN, FORDI, [REDACTED] RIDOLFI, COUMING, and WILLIAMSON). All of these, with the exception of [REDACTED] were arrested in the Camden action. U

Our main effort now to develop evidence for prosecution is directed toward well-planned and carefully thought-out interviews. It is almost a certainty that there is a wide circle of individuals in the various New Left groups and among the BERRIGAN adherents who have some direct or hear-say knowledge about MEDBURG. It is highly likely that others among the Camden 28 were MEDBURG participants. Well handled interviews of these people and their associates should eventually lead to someone with first-hand knowledge, who is willing to testify for one reason or another. Departmental Attorney [REDACTED] is willing to consider granting immunity to any individual who will furnish information concerning MEDBURG which would assist in successful prosecution. U

[redacted] billed himself as the [redacted] of the International League for the Rights of Man (ILRM). [redacted] suspects in Medburg and involved in Eastcon, made arrangements for [redacted] tour while in Philadelphia. U

On 2/2/72, Philadelphia learned that the ILRM was a civil rights oriented organization serving as a non-Governmental agency accredited to the United Nations. The organization is primarily concerned with civil rights and is affiliated with pacifistic and black civil rights organizations. The Executive Director of the organization is either [redacted] and is located at either 156 5th Avenue, New York, N.Y., or 777 U.N. Plaza, Suite 6-F, New York, N.Y. U

Philadelphia has been unable to locate any correct or previous address for the organization in Sacramento, Calif. It would appear therefore that this address is either an error or an address taken from an old directory of some type. U

#### LEADS

AT NEW YORK CITY, N.Y.

1. Determine if the ILRM has received any other Media documents; and, if possible, obtain them along with transmittal letter and envelope and submit same to the FBI Laboratory for latent fingerprint examination. Also send copies to Philadelphia. U

2. If feasible, interview Executive Director of ILRM, or other personnel, to determine if he has any idea why someone might mistakenly believe ILRM was located in Sacramento, Calif. Also attempt to determine if he has any idea who might send him a spurious FBI document. Keep in mind, however, that the Bureau did not obtain possession of this letter through normal postal channels. U

3. Attempt to determine which Medburg suspects, Resistance people, or black activists (such as [redacted] in Philadelphia) might be associated with or have contributed financial assistance to the ILRM. Philadelphia has learned that the ILRM publishes an annual report and

PH 52-7165 Sub T

bulletins which should be reviewed in conjunction with this lead. U

BOSTON, NEW HAVEN, NEW YORK, BALTIMORE, AND  
PHILADELPHIA:

It would appear that whoever sent this fraudulent document bearing the letterhead "From the Desk of the Director" apparently had access to an old or incorrect address for the ILRM. In addition, the manner in which the document was prepared and the nature of information contained therein would indicate a strong possibility that it was prepared by a black activist group. Each office will therefore attempt to locate the address book or index (index such as the Yearbook of International Organizations) containing the 650 Capital Mall, Sacramento, Calif., address. U

Each office, through sources or other means, should determine if any organization such as Resist, the Black Economic Development Fund, or the Black Panther Party has a listing in their records for this incorrect address. If such a listing is located, every effort should be made to obtain the original of said listing for submission to the FBI Laboratory for latent fingerprint examination. U

Philadelphia is fully cognizant of the difficulty entailed in covering this lead; however, the identity of the group or individual mailing this document would be of great assistance in solving Medburg. U

The Bureau has directed that this investigation be vigorously pursued and coordinated. U

New York requested Philadelphia to consider individual investigation of JOHN P. GRADY, under a substantive violation such as 52-DGP, if substantive criminal violation is under investigation. The 62-category is primarily intended for the usage when no other suitable caption exists. New York stated that upon receipt of investigation to date, New York would submit a closing report. U

As New York and other offices are aware, specific instructions have previously been set out by the Bureau and SAC, MEDBURG with regards to handling subjects and suspects in the MEDBURG case, it being noted that GRADY is a MEDBURG subject. In Bureau teletype to Albany and number of offices under the EASTCON and MEDBURG caption dated 5/21/71 and Philadelphia teletype to Bureau and a number of offices including New York under the MEDBURG caption dated 5/21/71, instructions were set out in regards to the proper character to be used in individual MEDBURG subject-suspect cases which character is MISCELLANEOUS-INFO CONCERNING (MEDBURG-SUSPECT). U

Previous instructions have been sent out to appropriate offices with regards to investigation necessary in MEDBURG subject-suspect cases by SAC, MEDBURG. This included having individual cases on such subjects-suspects and set forth the necessary investigation with regards to elimination of subject-suspects. Philadelphia found it useful where a 100 classification file existed to continue the investigation in that file using the proper character MISCELLANEOUS-INFO CONCERNING (MEDBURG-SUSPECT). Where a new suspect case was subsequently opened, this was done using the 62 classification and the character as shown above. U

As New York is aware there are four subjects in MEDBURG who are as follows: U

PETER DONALD FORDI  
JOHN P. GRADY  
EDWARD MC GOWAN

b6  
b7C

These are New York people. U

PH 100-52132

Philadelphia is continuing to handle MEDBURG as a Special in efforts to develop other subjects, corroborate, and obtain additional evidence against subjects. This, of course, necessitates that all offices conduct prompt thorough penetrative and in-depth investigation with regard to all leads set out. Any and all assistance by other offices is appreciated, including the taking of aggressive prosecutive action to bring about prosecution for other break-ins such as Gardburg. U

Additional evidence as New York is aware of on JOHN PETER GRADY is needed. We need to know where he was staying just prior to 3/8/71, his mode of transportation, contacts, etc. If New York could develop current sources close to him now, this might be useful in identifying other subjects, the extent of other three subjects involved and the current whereabouts of MEDBURG documents. U

New York is also aware of the statements made by close association of GRADY to the effect that break-ins will continue. The anniversary date of MEDBURG is nearing which makes it all the more important to know GRADY's current activities identifying those sources who may be cooperative and interviewing them concerning break-ins violation in which GRADY has been involved including MEDBURG. The investigation on GRADY should, of course, be conducted with discretion noting he is currently under indictment for the Camden Action. U

In view of the above, all offices should continue to conduct investigation expeditiously on any leads already set out and any new ones developed in the future. U

This airtel is directed to the Bureau in accordance with Bureau instructions. U
